BUSINESS SCHOOL

Bachelor of Business Administration

Global Careers Report 2018

Contents

- 4 Global network
- 6 Global opportunities
- 10 Entrepreneurial culture

“I’m proud to say that at Hult, we are experts in helping international students find international jobs. This is important because although our students come from different corners of the globe, they share the same goal: to make a change in their lives.

Our onsite Career Advisors are experts in helping our Undergraduate students. The team spend time helping students to source internships, optimize their resume, and research career paths. Students are coached with one-to-one interview tips and feedback. The support is tailored to each student—whether they want to break into investment banking, digital marketing, or entrepreneurship.

The statistics in the booklet are a testament to the hard work of our students, and to the dedication of our faculty and staff who help students achieve their global career ambitions.”

96%

are employed or pursuing an advanced degree within six months after graduation

Of the 96% total who are employed or pursuing an advanced degree, 18% are pursuing an advanced degree

The Corporate Executive

While at Hult, Jolly clarified her career aims, and secured a sponsored role at Barclays in the U.K. well before she graduated.

“Before Hult, I wasn’t sure what I wanted to do. Hult helped introduce me to an industry that is practically non-existent in my home country. Through a combination of the classes I took—joining the Finance Society, attending the careers events, and receiving coaching at Hult—I discovered my passion for the finance industry.”

 Class of 2017

The Entrepreneur

Gazi developed the first completely wireless charger for phones, and is already selling the product throughout Europe.

“Having ideas is one thing, but having the right support is a whole other thing. My professors were a great support and gave me some amazing advice. They also introduced me to my business mentor—the founder of Shazam.”

Top 3 industries Hult graduates work in:

1. Technology
2. Consumer packaged goods
3. Financial services

What industries do Hult BBA graduates go on to work in?

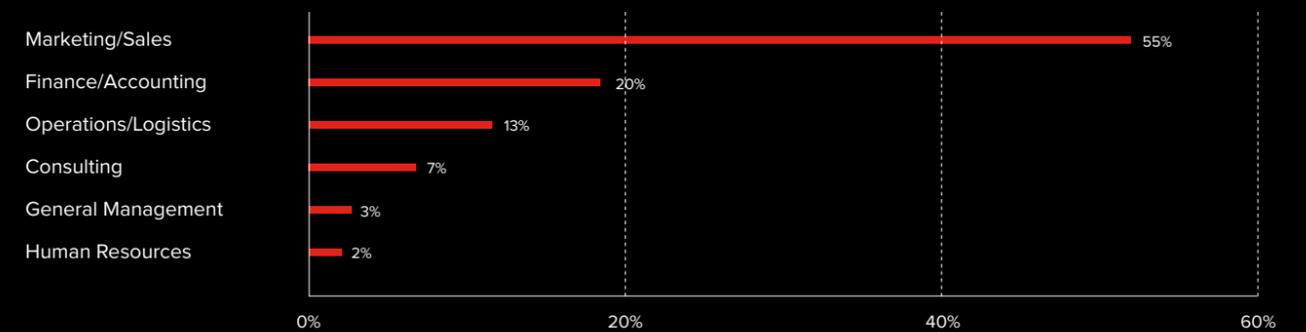

The Techie

By attending careers events at Hult, and leveraging his new network, Tobias was able to secure a role at Apple.

“My story proves that the network you build while you’re at Hult is likely to be crucial to the success you’ll have afterwards. If the industry speakers who came to Hult had not directed me to some great Meetups, I would not have been able to connect with the person whom ultimately sent my resume to a recruiter, and eventually landed me a job at Apple.”

Where are Hult BBA graduates now working?

The Accelerator

Linda achieved her aim of securing a role at one of the biggest and most international companies—KPMG.

“My goal was to begin an auditing career at one of the biggest and most international firms. My professors at Hult gave me critical insights into the newest industry regulations, as well as how companies are trying to utilize the latest technologies. I believe this knowledge was one of the main reasons I was offered a position in KPMG, before I had even graduated.”
