

Advanced Placement credits

If you have earned credits at another institution, you might be able to bring some of those credits with you to Hult. Depending on the high school or secondary school system in your home country, you may be able to start your degree at Hult with up to 30 Advanced Placement (AP) credits. If you are transferring to Hult from another university or college, you could bring up to 60 qualifying transfer credits with you. The admissions committee determines how many credits you can bring with you to Hult, and their decision is based on your GPA (Grade Point Average) and diploma results. If you have any questions about the process for applying for credit transfers, your Enrollment Advisor will be able to help.

COUNTRY	DIPLOMA	CREDITS*

***Advanced placement credits - GPA of final diploma is benchmark for evaluation**

Please note that this list does not guarantee you advanced placement credits, nor does it affect our admissions requirements. The decision still lies with the admissions committee and the final credit amount depends on your High School Diploma result (GPA). Countries not listed indicated there are no advanced placement credits awarded.
