ACO PRIMARY CARE FLEX MODEL

Center for Medicare and Medicaid Innovation

Date: November 2026

To: A5646 – ElevateCare Network LLC

From: ACO Primary Care Flex Model

Subject: Public Reporting of ACO Primary Care Flex Model Quarterly Spend Report for Quarter 2 of Performance Year 2026

This document contains the *ACO PC Flex Model Quarterly Spend Report* for Quarter 2 (Q2) of Performance Year (PY) 2026 prepared by ElevateCare Network LLC (A5646), detailing the ACO's actual spending of payments received from CMS during the applicable timeframe.

Under the terms of the *ACO Primary Care Flex Model Participation* Agreement (hereinafter, the Agreement), participating ACOs receive two payments from CMS: 1) an Advance Shared Savings Payment, which is a one-time, lump-sum $250,000 payment provided in Quarter 1 (Q1) of the first Performance Year (PY 2025), to support costs of forming the ACO, and 2) a Prospective Primary Care (PPC) Payment, which is a monthly prospective population-based payment provided in lieu of fee-for-service (FFS) revenue and continuing throughout Model participation. Pursuant to Section 8.05.C of the Agreement, the ACO shall publish certain elements, as specified by CMS, of its Quarterly Spend Report on its Medicare Shared Savings Program webpage (maintained pursuant to 42 CFR § 425.308), in a form and manner and at a time specified by CMS. Within this report, ACOs detail their spending of payment received during the applicable quarter, including spending by Expenditure Category.

In this report, Table 1 summarizes the total dollar amount of funds spent during Q2 of PY 2026. Tables 2 and 3 provide an in-detail summary of Advance Shared Savings and PPC Payment spending, respectively, by subcategory and month within the quarter.

This communication material was prepared as a service to the public and is not intended to grant rights or impose obligations. It may contain references or links to statutes, regulations, or other policy materials. The information provided is only intended to be a general summary. It is not intended to take the place of either the written law, regulations, or agreements. We encourage readers to review the specific statutes, regulations, and other interpretive materials for a full and accurate statement of its contents.

[2] Rollover Funds are PPC Payments tied to a specific performance year that remain unspent at the end of that performance year and are subsequently reported as spent in quarters of the later performance year. Please note that the definition of Rollover Funds has been updated as of Q2 of PY 2026. This change in the definition does not impact the rollover fund calculation methodology utilized in prior public reporting documents.
