

CERTIFICATION OVERVIEW

In light of the impact of COVID-19 and the critical need for PPE and hand sanitizer, many government agencies have issued a temporary relief notice on regulations. Nevertheless, AMASS is taking the initiative to ensure our products comply with all regulations once these temporary measures are lifted.

AMASS also carries liability insurance for our hand sanitizer products.

- **UNITED STATES:** AMASS is fully compliant with FDA regulations
- **UK:** No certification currently required; AMASS is applying for National Authorization to be compliant when temporary measures are lifted
- **EU:** Initiated CE certification process (6-8 weeks)
- **APAC:** Initiating certification process with individual countries

ALCOHOL OVERVIEW

- AMASS hand sanitizer uses pure food grade grain neutral spirits (ethyl alcohol) and is sourced from MGP in Indiana. Our 70% ethyl alcohol base exceeds the CDC standards for a minimum 60% ethanol component to effectively kill germs
- MSDS available upon request

UNITED STATES OVERVIEW

US SHIPPING CERTIFICATIONS

- Certified to ship with USPS; documents available upon request
- No certification needed to ship hand sanitizer via Fedex Ground

US SHIPPING PROCESS
