The Epoch™ Time Management Solution Increases Ease, Accuracy, & Completeness of Tracking & Recording Time

- ▶ Simplifies the time entry process and improves the validity of timekeeper data by utilizing pre-set data validation checks and rapid, automated timekeeping methods
- ▶ Advanced timekeeping methods and intelligent integrations create higher quality billing data which can lead to higher realization and lower write-offs
- ▶ Reduces the inherent inaccuracies created when time is entered from memory by providing in the moment, system-delivered context of the attorney's daily activity
- ▶ Real-time synchronization across devices, narrative cleanup assistance, advanced time capture, and time entry expediting features encourage active timekeeping
