IM SHOWCASE 2021 VIRTUAL GALLERY

Saturday 19 - Sunday 20 June

Moz://a

An online exhibition of projects using Mozilla Hubs, where we are designing a series of virtual rooms space which will allow guests to navigate through the projects and interact with other guests.
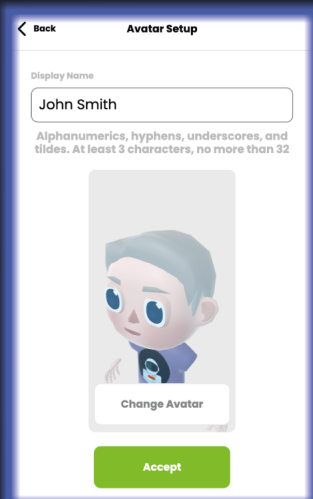

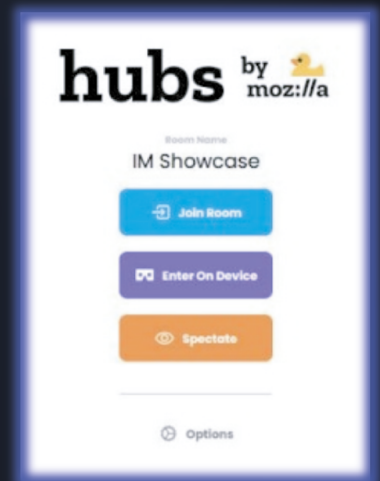

How to Join and Use:

Step 1

To join the Mozilla Hub room you will need to click on the room link (which you will get in an email before the event), from this image on the left you can click two options.

Click 'Join Room' to enter on your phone or computer. We recommend joining on a laptop or computer for a better experience.

Or if you have a 'Google Cardboard' or VR device click 'Enter On Device', and you can join the room in VR.

Step 2

You will then be asked to set up your avatar. Enter your name (Other visitors will be able to see this name, so we recommend using your real name in case you see people you know)
You can also change your avatar by selecting 'Change Avatar' and choosing from the many options.
Click accept when you are done.
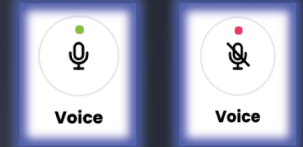

How to Join and Use, continued:

Step 3

If you'd like to talk to people while in the room give the website microphone permissions.

The audio acoustics work like a real room, volume will increase as you get closer to the source and decrease as you walk away.
This includes when other visitors are speaking.

You can mute and unmute throughout the time in the room using the button in the hotbar.

Step 4

Once in the room you can move around using the WASD or the arrow keys, and control the camera by holding left click on the mouse and dragging.

Step 5

To access the chat, click the blue chat button at bottom of the screen. You can type messages and talk to other visitors in the room.

Step 6

When you enter there will be a stand with a committee member at it, if you require help with using the room and/or want more information about anything. Just unmute, or message in the chat enter the word "help" and a member of the committee will help you. This also applies throughout the room.

There will be at least 2 committee representatives in the room at all times. Committee members will also have a name with "- IM staff" at the end, if you see us in the room, don't be afraid to unmute and talk to us, especially if you want more information about any of the projects.

Step 7

To view and watch projects that are on the wall, hover your mouse over it. Media buttons will appear that will let you pause, stop, replay and adjust the volume of the video. You can also right click the video to view it in full screen.
