## FOREWORD

### FROM SEAT TRADER TO SEATING EXPERT

In 1986, Elias Johannes (John) Blokland, the founder of EBLO, began selling seats for forklifts and tractors from a small garage unit. "Over the years, we've outgrown several locations, relocated three times, and significantly expanded our product range," says CEO Evert Mallie. "In 2014, we established ourselves in Zwijndrecht, the Netherlands, where we expect to have the necessary capacity to support our growth in the years to come."

Over the past decades, EBLO has developed into an international seating expert, offering a solution for every seating challenge. "Together with our team of over 40 employees, we create seating solutions for every workplace."

### SEATS FOR EVERY BODY!

"Our motto 'Seats for every body!' may sound simple, but just imagine how many individuals spend their working hours in a seated position. From bus or truck drivers to crane or loader operators, and even nail stylists and hairdressers, they all perform seated work. The challenge is to provide the most ergonomic seating solution for each workplace. The human body was never meant for prolonged sitting, which makes proper seating essential!"

### WE SIT EVERY DAY, BUT WE RARELY SIT WELL

#### GET TO KNOW EBLO

"In this brochure, we invite you to discover EBLO and our range of solutions for comfortable and sustainable seated work. In addition to a wide selection of seats, we offer services such as assembly, repair and custom-made seating solutions. Feel free to contact us, we are always up for your seating challenge!"

## HISTORY OF EBLO

# FROM A MODEST START TO EUROPE'S LEADING SUPPLIER

### FROM A MODEST START TO EUROPE'S LEADING SUPPLIER

"Despite our modest start in a small garage unit, we have grown into one of Europe's leading supplier of professional driver and operator seats."

#### EBLO TIMELINE SINCE 1986

**1986** EBLO is founded by John Blokland and begins selling seats for forklifts and agricultural machinery in Krimpen aan den IJssel (NL). In **1990 Evert Mallie, now CEO, becomes part of EBLO.**

**1993** **André P. van der Hoeven** joins the team and introduces the 'showroom van', visiting customers on-site.

**2000** The first UnitedSeats seat, the C1, is introduced. Designed for mobility scooters, but also suitable for forklifts and agricultural machinery. This marks the foundation for modular seating. In 2002, the **UnitedSeats** brand is officially established.

**2003** Manufacturers of mobility scooters are switching to the C1 seat. Original Equipment Manufacturer (OEM) partnerships soon follow.

**2005** Evert Mallie becomes company leader, forming a new management team with André P. van der Hoeven and John Blokland (until his retirement in 2011).

## HISTORY OF EBLO

# EBLO CONTINUES TO GROW

6 > 10.000 M<sup>2</sup> WAREHOUSE

## EBLO TIMELINE UP TO 2026

- 2007 UnitedSeats begins a **global partnership** with Caterpillar, JLG and Deutz Fahr, welcoming its first customers from the construction industry. To meet the growing demand for UnitedSeats products, the production facility in Asia has been expanded.
- 2013 In 2013, a new building is acquired, followed by a comprehensive 16-month renovation.
- 2014 In 2014, EBLO relocates to its new premises in Zwijndrecht, the Netherlands. The facility features a fully renovated showroom and a 10,000 m<sup>2</sup> warehouse, **offering sufficient capacity for future expansion.**
- 2015 EBLO opens its office in the United Kingdom.
- 2017 EBLO wins its first public transport tender with RET Rotterdam, the Netherlands.
- 2020 The **UnitedSeats** dealer network is larger than ever, with over 60 official dealers and numerous OEM customers.
- 2026 **EBLO continues to grow, now employing more than 40 dedicated and long-term team members.**

**SUPPORT  
AND SERVICES**

**SEATS,  
CUSHIONS  
& (SEAT) PARTS**

**EBLO TAKES CARE**

EBLO is a total supplier for solving all kinds of seating challenges. We provide seats from various well-known international brands and take care of our customers through a complete range of services and support.

**SERVICES AND SUPPORT**

- Personal sales advice | Available on-site (in the Netherlands/Belgium).
- Seat modifications and custom solutions | Workplace assessment available.
- Offering service | Ergonomic advice, seating instruction, vibration and pressure management.
- Upholstery, repair, and maintenance.
- On-site installation & breakdown service | Available in the Netherlands/Belgium.
- Fleet Maintenance app.
- Supply of both small and large series | **UnitedSeats** for OEM.
- Test seating in our showroom.
- Large stock warehouse | **Ensuring a fast delivery!**

9

**CUSTOM-MADE  
ASSEMBLY SOLUTIONS**

**10 SINGLE UNITS OR LARGE SERIES**

**CUSTOM-MADE SEATING AT ANY SCALE**

Can't find a seat in our extensive range that fully meets your needs? No problem, we offer custom-made seating solutions. Whether it's a single seat for your car, bus, or truck, or large-scale series production: we provide custom-made seating solutions for every requirement.

We also work closely with vehicle and vessel manufacturers to create ergonomic and perfectly fitting seating solutions, tailored to specific applications and user needs.

**ASSEMBLY | IN-HOUSE**

In our spacious assembly area, our seating specialists modify and assemble seats and seat components on a daily basis. Thanks to our extensive stock of parts from renowned seat brands, we can configure a seat that fully meets your individual requirements.

**SERVICE AND REPAIR**

EBLO is also your trusted partner for service and repair. We refurbish and repair seats of all brands, ensuring lasting comfort and safety.

**A MESSAGE FROM OUR SALES REPRESENTATIVE**

“ There are countless types of workplaces, each requiring a different approach and seating solution. Customisation is therefore a key part of our expertise. Whether you're looking for a custom-made seat for your vessel, construction machine, tractor, bus or truck, we are ready to support you. ”

André P. van der Hoeven  
Sales Director

**CUSTOM-MADE SOLUTIONS  
FOR CONSTRUCTION**

## ERGONOMIC CONSTRUCTION MACHINERY SEAT

12 'TAILORED TO PERFECTION'

### **S**SPECIALS FOR CONSTRUCTION AND EARTHMOVING

Construction and earthmoving machines perform heavy-duty work. This requires seats that can handle tough conditions while providing a high level of seating comfort. A quality seat protects the operator from vibrations and helps prevent physical discomfort during long working days.

We offer a variety of seats for cranes, excavators, and other construction machinery. Each seat is designed for optimal body support and comfort, ensuring operators can work safely and comfortably even under the most demanding conditions.

### **PERFECT FIT THROUGH CUSTOMISATION**

A good seat matches 80% of the operator's body dimensions. EBLO perfects the remaining 20% through customisation, creating a seating solution that fits both the operator and the machine perfectly.

### **CUSTOM SOLUTIONS FOR EVERY SEATING POSITION**

We provide custom seating solutions for every workplace and profession. Whether you need extra body support, durable upholstery or a unique design, our team develops seats fully customised to your specific needs.

### **A MESSAGE FROM OUR SALES REPRESENTATIVE**

“ Every operator is different, that's why we supply custom seats. We combine leading brands such as Grammer, ISRI and our in-house brand UnitedSeats. Thanks to our large stock, we deliver quickly and provide the right seating solution for every application. ”

Jan Willem Groeneveld  
Account Manager

**CUSTOM-MADE SOLUTIONS  
FOR PUBLIC TRANSPORT**

# FULL SUPPORT WITH SERVICE & MAINTENANCE

## FLEET MAINTENANCE APP THE DIGITAL MANAGEMENT TOOL

### NEW ISRI SEATS FOR GVB

For GVB, Amsterdam's public transport operator, EBLO supplied more than 400 new ISRI driver seats for rail vehicles. We also handled the installation and maintenance, a successful and large-scale project.

The seats comply with all legal requirements, including fire-resistant upholstery according to the EN45545 standard for rail vehicles.

Each seat was installed on-site according to customer specifications. A precise task carried out with the utmost care.

In addition to GVB, we provide service and maintenance for various other public

transport companies in the Benelux region. Regardless of the seat's brand, model, or year of production, our expertise, experience, and extensive spare parts inventory ensure minimal downtime. We also provide advice on maintenance and service contracts to keep every seat in your fleet in top condition.

### INSTANT INSIGHT WITH FLEET MAINTENANCE APP

The Fleet Maintenance app provides instant insight into every seat's condition and maintenance status; simple, clear and fully digital.

### A MESSAGE FROM OUR DEP. GENERAL MANAGER

“Seats in a fleet must be properly maintained to ensure their condition and to prevent equipment downtime. The Fleet Maintenance app is designed to further support our customers by providing even better and more efficient service.”

**Marcel Kool**  
Dep. General Manager

**IN-HOUSE  
UPHOLSTERY**

**ERGONOMIC ADJUSTMENTS  
ACCORDING TO CUSTOMER REQUIREMENTS**

**IN-HOUSE UPHOLSTERY**

In our in-house upholstery workshop, our experienced upholstery specialist ensures the perfect finish for seats and cushions. From ergonomic adjustments to full reupholstery, everything is carried out quickly and professionally in-house.

**WORN SEATS AS GOOD AS NEW**

Is your seat worn out or ready for a new look? We reupholster seats in the material you prefer, including Regain Fabrics, PVC, leather or any other fabric of your choice.

**A MESSAGE FROM OUR SALES REPRESENTATIVE**

“ Give your seat a new look or extra seating comfort. We (re)upholster both new and existing seats, with company logos, coloured stitching, or fire-retardant fabrics for added safety and protection. Everything is fully customised to your preferences and desired look. ”

**Hennie Olsthoorn**  
Operations Manager &  
Sales Manager

**ON-SITE  
INSTALLATION**

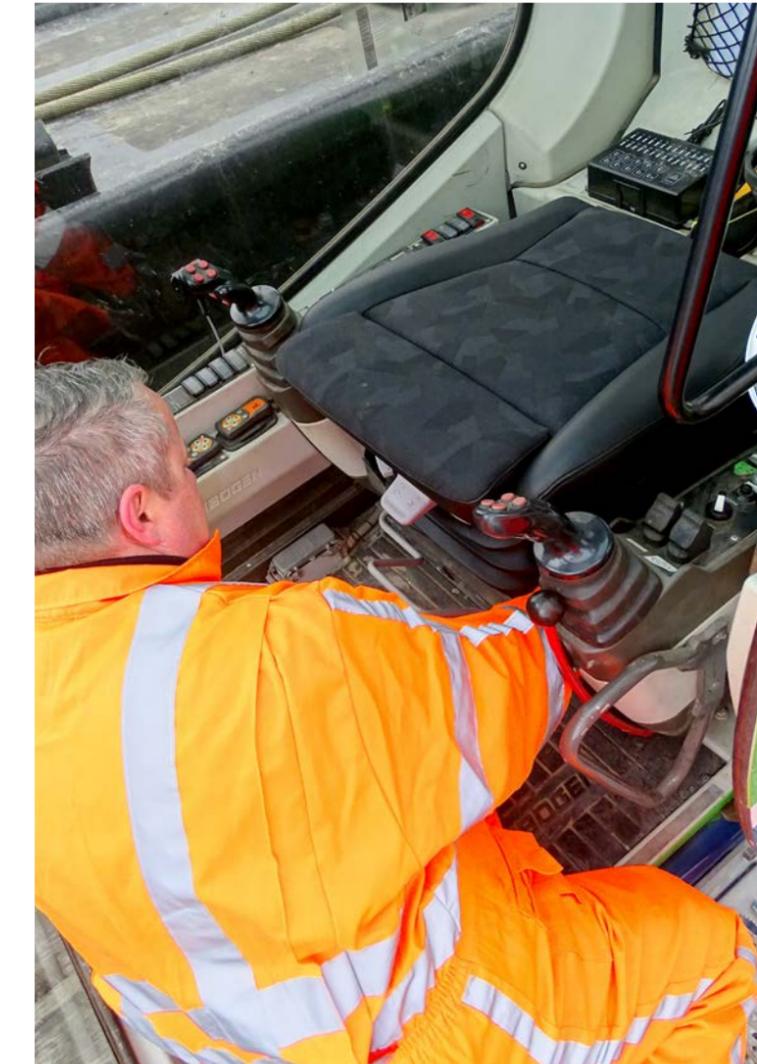

**24/7 SERVICE SUPPORT  
CONTRACT-BASED**

**ON-SITE INSTALLATION**

EBLO provides seat installation services on-site throughout the Netherlands and Belgium, or in our own workshop. Our dedicated seating specialists install seats and seat components quickly and professional.

With a fully equipped technical service team and many years of experience, we can quickly resolve technical issues on-site.

For maximum operational reliability, we also offer a 24/7 service contract, keeping vehicle and machine downtime to a minimum.

**ERGONOMIC  
SEATING ADVICE**

**20 PREVENT SEATING DISCOMFORT**

**SEATING ADVICE THAT SUITS YOU**

An ergonomic seating solution starts with a thorough analysis of the current seat and the adjustments required. Based on this, our seating specialists work with you to create a detailed work description, also known as a build plan.

During an intake meeting, we assess the workplace and discuss:

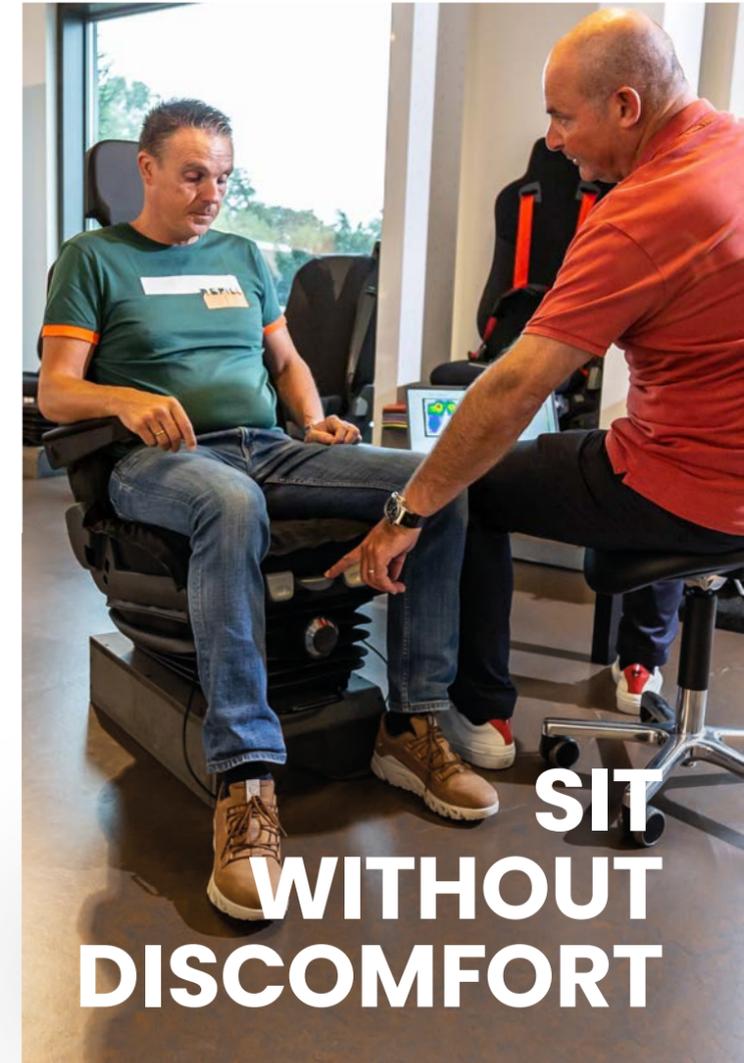

- seating-related complaints;
- technical requirements;
- the type of work performed;
- the number of users.

This information forms the foundation for a well-founded ergonomic seating recommendation.

**SIT WITHOUT DISCOMFORT**

Based on the intake, we assemble a fully customised seat. This ensures the right fit and long-lasting comfort.

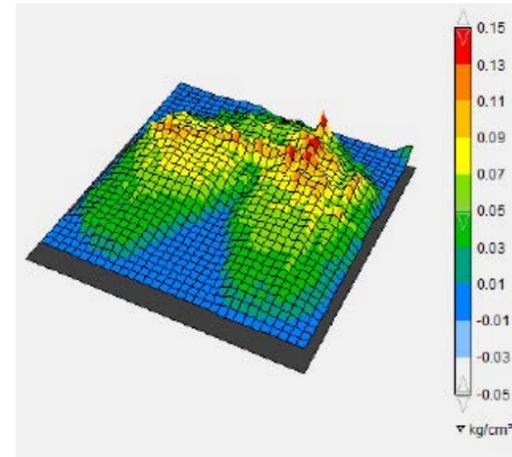

Together, we define the most suitable ergonomic solution for your workplace and daily activities.

## ERGONOMIC SEATING ADVICE

### PRECISE PRESSURE MEASUREMENT

EBLO manufactures seats that are fully aligned with individual seating needs. To accurately map these needs, we use a specially designed pressure measurement mat. This mat collects data from more than 250 pressure points, providing clear insight into the source of any seating-related discomfort.

### VIBRATION ANALYSIS FOR ERGONOMIC SEATING

Daily exposure to vibrations and impact forces while operating vehicles increases the risk of physical strain for drivers and operators.

To assess the actual physical load experienced by the operator, we perform a vibration analysis. These measurements are supported by a detailed evaluation and a clear report. Based on the results, we can provide a suitable seating recommendation.

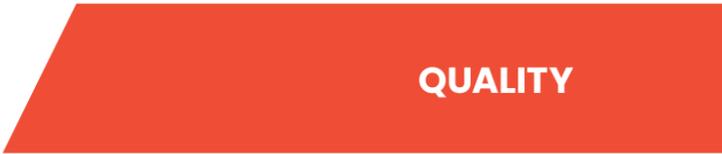

### SEATING INSTRUCTION AND SETUP

A seat with extensive adjustment options only provides true seating comfort when used correctly. Comfortable seating does not automatically mean ergonomic seating.

That's why we offer professional seating instructions, either in our showroom or on-site in the Netherlands and Belgium. Each operator learns the correct seating position, how to use the seat's features, and how to stay comfortable throughout the day.

INSIGHT INTO SEATING PROBLEMS 23

### QUALITY MANAGEMENT

At EBLO, quality assurance is an integral part of our organisation. We monitor and control the entire production process according to established procedures, ensuring our products consistently meet both internal and external quality standards.

### CERTIFICATION

Since 2014, we have been certified according to ISO 9001:2008. In 2017, this certification was replaced by the updated ISO 9001:2015 standard, followed in 2018 by certification for ISO 14001:2015.

- **ISO 9001:2015** is the internationally recognised standard for quality management.
- **ISO 14001:2015** focuses on environmental management within organisations.

Both certifications have been renewed recently.

We also follow the **NEN-ISO 26000:2020** guideline, the international standard for Corporate Social Responsibility (CSR). This framework provides practical guidance for structurally integrating sustainability into our business operations while minimising our impact on people and the environment. Our CSR efforts focus on key areas, such as: Environment, Consumer Interests, Labour Practices, Human Rights, Good Governance, Fair Business Practices, and Community Involvement.

We are also proud to hold the **EcoVadis Committed Badge**, a globally recognised label for reliable sustainability performance assessments.

**EBLO INVESTS IN SUSTAINABILITY**

EBLO continuously takes steps towards a more sustainable future. In addition to a low-emission vehicle fleet, solar panels, and a well-insulated roof, our headquarters is fitted with high-performance façade insulation panels. We take our social responsibility seriously and make annual investments in energy-saving initiatives, combined with active monitoring our CSR objectives.

**PARTNER OF MVO NEDERLAND**

As a partner of MVO Nederland (CSR the Netherlands), EBLO is part of a network of more than 2,000 companies working together to build a sustainable and future-oriented economy.

**SUSTAINABLE TRANSPORT POLICY**

EBLO is moving towards a low-emission vehicle fleet. Employees actively use our new company vehicles as part of our sustainable transport policy.

**EFFICIENT ENERGY POLICY**

We reduce energy consumption through a range of efficient measures. All workplaces comply with current health and safety regulations. Equipment is switched off when not in use, and our internal air circulation system helps to minimise unnecessary energy use.

**WASTE MANAGEMENT & RECYCLING**

Our packaging boxes are made primarily from recycled cardboard. We minimise waste during production and offer a return and recycling service when delivering new products. Materials are reused wherever possible.

## EBLO BRANDS

### SEATS OF ALL WELL-KNOWN BRANDS

Our product range is nearly unlimited. We offer seating solutions for almost every type of vehicle or vessel, as well as for fixed workplaces such as offices, social workshops and control rooms.

Thanks to our large inventory of thousands of seats and seat components from the industry's leading manufacturers and brands, we can deliver quickly and respond efficiently to any seating requirement.

ISRINGHAUSEN  
**ISRI**<sup>®</sup>

### UNITEDSEATS: EBLO'S IN-HOUSE BRAND

UnitedSeats is EBLO's in-house brand, developing high-quality seats that perfectly combine comfort, safety, and ergonomics. For every vehicle or machine, we provide a suitable seating solution that enhances productivity and comfort, even under the toughest conditions.

#### GLOBAL NETWORK

UnitedSeats supplies its products worldwide through a strong dealer network, supporting a diverse customer base, including vehicle manufacturers.

UnitedSeats offers customers a high degree of flexibility. With the pay-off "We Unite Your Seat", we emphasise that a wide range of seat configurations and seating solutions is possible.

#### READY FOR QUICK DELIVERY

All UnitedSeats seats are produced under contract in an ultra-modern 75,000 m<sup>2</sup> factory, fully equipped with the latest production technologies.

Our in-house design capabilities enable us to tailor UnitedSeats seats entirely to customer requirements.

### UNITEDSEATS: FORKLIFT SEATS

UnitedSeats offers a wide range of forklift seats suitable for all leading forklift brands. Low-profile and compact models are specifically developed for the material handling market.

### UNITEDSEATS: CONSTRUCTION MACHINERY SEATS

UnitedSeats supplies robust construction machinery seats, designed to withstand heavy loads and harsh working conditions. Quality and durability are always top priorities.

### UNITEDSEATS: TRACTOR SEATS

UnitedSeats offers both air-suspended and mechanically suspended seats, suitable for a wide range of agricultural applications.

### UNITEDSEATS: SEATS FOR ALL MARINE APPLICATIONS

UnitedSeats supplies seats for all types of marine applications, from leisure boats to large vessels and port equipment. Whatever the application, UnitedSeats has the right seating solution!

UNITEDSEATS  
**60+** DEALERS  
WORLDWIDE

**UNITEDSEATS**  
OEM

UnitedSeats supplies series production to more than 50 OEMs worldwide, from small to large manufacturers. Are you a vehicle or machinery manufacturer looking for a seat for an operator position or control station? UnitedSeats provides the right seating solution.

**MODULAR SEAT COLLECTION**

UnitedSeats manufacturers high-quality seats, fully customised to meet customer specifications. Our seats are ready to install, available in both small and large production runs, competitively priced, and offered with a wide range of options. Our modular seat collection is supplied plug & play.

You benefit from a wide selection of certified base components, including:

- air and mechanical suspensions;
- seats with low, medium or high backrests;
- various upholstery options;
- an extensive range of components such as armrests, seat belts and headrests;
- branding with your own company name or logo.

## "WE UNITE YOUR SEAT"

To provide a clear overview of the possibilities, we highlight the UnitedSeats MGV35 and MGV55 series.

### MGV35 AND MGV55 SERIES

Our MGV35 and MGV55 seats meet all major ergonomic, safety and vibration compliance standards. They can be fully configured to meet the requirements of each customer or OEM. A wide range of additional options can be integrated, including:

- upholstery in the material and design of your choice;
- back cushion with custom logo;
- various suspension systems;
- headrest;
- armrests options;
- joystick armrests in multiple versions;
- seat heating (12V or 24V);
- 2- or 3-point seat belt;
- seat belt in multiple colours available;
- 2-pin or 4-pin contact switch.

1. Backrest  
Fully adjustable with tilt function.

2. Armrests optional  
Armrests can be fitted on the left, right or both sides.

3. Contact switch  
4-pin.

4. Manual weight adjustment  
From 50 - 155 kg.

5. Headrest  
Optional.

6. Integrated seat belt  
3-point seat belt, black/orange.

UnitedSeats MGV35 and MGV55 series  
Comfortable seats for forklift, tractor and construction machinery.

7. Integrated seat belt  
2-point seat belt black/orange.

8. Upholstery as desired  
PVC-upholstery.

9. Upholstery: material of choice  
Black/grey fabric upholstery.

10. Custom logo printing  
Company logo included.

11. Seating width  
460 mm or 490 mm.

## UNITEDSEATS DEALER NETWORK

### **M**ORE THAN 60 DEALERS WORLDWIDE

UnitedSeats supplies high-quality seats for agricultural vehicles, construction machinery, forklifts, marine vessels and compact utility vehicles. Thanks to our global network of more than 60 dealers, we can deliver our seats quickly and efficiently to locations worldwide.

### **DEALER DAYS**

For our UnitedSeats dealers, we organise Dealer Days, an inspiring networking event where partners discover our current product range and the latest developments. During the event, they can explore our showroom, join a facility tour, participate in assembly workshops, and attend presentations on the plans for the year ahead.

### **EBLO provides comprehensive support to all UnitedSeats dealers, including:**

- technical support, including datasheets and drawings;
- high-quality product images for sales and marketing;
- advice on seat installations;
- fast delivery from stock, in any required quantity;
- customised solutions and special finishes;
- short delivery times;
- competitive pricing;
- on-site training at EBLO (in the Netherlands);
- promotional materials and event support for trade shows and exhibitions.

**MORE THAN 60 DEALERS  
REPRESENTED WORLDWIDE** 35

## A STRONG BRAND

### BUILDING AN INTERNATIONAL BRAND

At EBLO, we continuously strengthen the positioning of the UnitedSeats brand. We regularly attend major national and international trade fairs and actively increase brand awareness through our website: [www.unitedseats.com](http://www.unitedseats.com).

### EXPANDING THE UNITEDSEATS DEALER NETWORK

Since 2015, David Hale, Business Development & Marketing Director at UnitedSeats, has been actively expanding the international dealer network. The network continues to grow and plays a key role in our global strategy. David has expanded the UnitedSeats UK team to three members, additionally supported by colleagues in the Netherlands and Belgium. The UnitedSeats team is supported on a daily basis by EBLO's experienced team.

From left to right: Liam Wood, Michael Hale, David Hale.

## INTERNATIONAL RECOGNITION

DISCOVER OUR SEATS  
IN THE SHOWROOM

# WHICH SEAT IS THE RIGHT CHOICE FOR YOU?

38

## DISCOVER & TEST OUR SEATS

EBLO has a spacious showroom where you can explore and try out our complete range of seats in a relaxed setting. Our seating specialists are happy to provide personal advice on different models and options. Together, we'll select the seat that perfectly matches your work environment and seating needs.

## CUSTOM SEATS ON TRIAL

We understand that you may want to assess a customised seat before making a decision. That's why we offer a four-week seat trial, directly in your own work environment, in the Netherlands and Belgium.

Every workplace and every operator is different, so it's important to ensure the seat meets your expectations.

## THE RIGHT SEAT FOR YOUR APPLICATION

Whether you need a seat for a crane, wheel loader, or forklift, testing the seat is the best way to ensure it fits your specifications.

## MEET OUR EBLO TEAM

EBLO would not be the same without our dedicated team. Our colleagues have years of experience and in-depth product knowledge. This expertise is reflected across our organisation, from product development to service and customer support.

### **C**OMMITTED TO QUALITY AND SERVICE

"From sales advisors to technicians and warehouse staff, each team member is essential to our success. We are proud of our committed and dedicated team. Their craftsmanship and enthusiasm make the difference on a daily basis", says Evert Mallie.

“Each team member is essential to our success.”

SEATS FOR  
EVERY BODY!
