

We have revolutionized allergy diagnosis and have been operating successfully in more than 60 countries for over 5 years with our diagnostic products and patented technologies. Our products make it possible for all relevant allergies to be clarified in just one step and for patients to quickly receive the optimal treatment from their specialist.

In just 5 years, we have grown from a startup to a company with almost 50 employees at our highly modern location in Vienna Liesing.

And we continue to grow - and are therefore currently looking for

## Protein Scientist (m/w/d)

### Your tasks

- Production of recombinant proteins
- Development of methods for purification & characterization of proteins
- Performance of protein characterization
- Optimization & validation of running processes
- Support & maintenance of equipment

### Your profile

- Completed education (HTL, college, FH, or university) in the field of biochemistry, molecular biology, biotechnology or similar.
- Familiarity with the production of recombinant proteins in different host organisms (preferably *E. coli* and *P. pastoris*)
- Familiarity with protein purification & characterization (FPLC).
- Nice to have: Practical experience with microbial fermentation methods (bench-, lab- and pilot-scale bioreactors)
- Motivation to grow in a team on exciting projects and challenges
- Ability to work and report independently

### Our offer

- Research work in a successful life science company
- Full-time position with attractive working environment
- Perfect connection to Vienna's public transport network (location 1 minute walk from U6 station Perfektastraße)
- Flexible working hours
- Varied and challenging tasks as a basis for personal & professional development
- Training and support by a dedicated and smart team

**Extensive benefits, such as**

- Annual pass for Vienna's public transportation system
- Daily meal vouchers
- Regular team events
- Perfect office and laboratory infrastructure
- Active opportunities to help shape the company (innovation of the month)

For the cooperation in our team, we offer a payment in line with the market starting from EUR 2.500.- gross p.m. on the basis of a full-time position (KV Handwerk und Gewerbe). Your actual payment depends on your previous experience and qualifications.
