01 My clients describe me as
Helpful, knowledgeable, fearless

02 Something that may surprise you about me
I've published a couple of books and recorded four full length albums with various musicians.

03 Something I’m proud of
Though I've been practicing law for less than 10 years, I've handled over 1,000 criminal matters (as both prosecutor and defense counsel). I've personally handled over 6,000 civil hearings and I've personally handled over 400 trials. I already have more in court experience than most attorneys accrue over their entire careers! I've also negotiated multiple millions of dollars in settlements, pre litigation agreements, and business transactions.

04 When I’m not practicing law
I m reading novels and classic literature, learning about whatever catches my fancy, taking up seemingly random hobbies, working out, and philosophizing with friends over a drink.
