

# Metso:Outotec

Bridging the knowledge gap

## eLearning Offering

Metso Outotec eLearning complements instructor-led training programs with a range of web-based, on-demand courses designed to maximize your training investment.

### eLearning Offering

For decades, Metso Outotec has helped customers achieve optimal equipment performance and profitability through cost-effective, high-quality training programs. Metso Outotec's eLearning offering is considered the foundation training that supports all learning and development opportunities and is a prerequisite for Metso Outotec's instructor-led training courses. Our eLearning program offers the following curricula:

1. Product Knowledge
2. Parts Product Support
3. Nordtrack™
4. Screening Media Solutions
5. Conveyor Solutions
6. Digital Applications

### Ensure training success

At Metso Outotec, we view learning and development as a long-term collaboration with our Distributor network worldwide. We are committed to developing solutions that contribute to elevating job-specific competencies, knowledge and skills of our products and equipment, including:

- Up-to-date product information
- Quizzes to reinforce information presented
- Instructional videos
- Equipment cross-sections and parts identification
- Exams at the end of each course requiring a passing score of 80% or higher

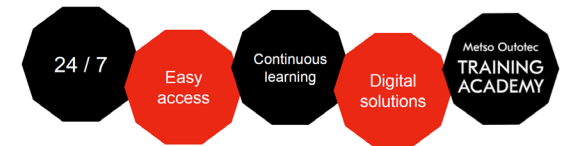

### Why Metso Outotec eLearning?

As a subscriber to Metso Outotec's eLearning programs, your courses will be kept up to date with the latest product information. Additional courses will be added as they become available. You will also be able to review past courses any time a refresher is needed. Courses are available whenever and wherever it is most convenient.

- 24/7 access to eLearning curricula
- Review and retake courses at any time
- Access from work or home—learn on your own schedule!
- No need to leave the workplace to attend training
- Save time and money on travel
