included in all plans

How to Guide

memoryKPR is easy to set up without this guide, but sometimes we all need a little extra help.

step 1

Visit www.memorykpr.com and sign up for an account.

Scan the QR code for a how to video!

step 2

Create a story, name your story, give it a description and update the cover photo to make it unique to you!

step 3

Add media to your story from your phone, social media or the web.

step 4

You're ready to **invite others** to add to your story!

Tips and Tricks

Send your link before & after your event

Send the QR code in advance so that everyone knows how to contribute to your story.

Play the **memoryKPR** slideshow

Play the slideshow on the big screen during the breaks.

Add event details to your story

Add agendas, menus or special information for your event to your story. If you start the story guests are more likely to add content when they feel like they don't have to go first

Create photo opportunities for your guests

Create spaces for your guests to take photos and videos.

Place the QR code beside the photo space so guests can easily upload their memories

After your event

Use the QR code for the gallery view in your thank you cards

Order print books as keepsakes

Whether it is the new house, kids or a great trip, keep the story going with **memoryKPR**.

Thanks for coming

We are so overwhelmed with love that you all showed up for our special day. We can't thank you enough for making it all the more memorable for us. If you haven't yet, please add your photos from our wedding to our story so that we can relive all of the memories in the years to come.
