COVID-19 Vaccination Policy 2021–22

Mandatory Vaccinations

We believe it is prudent and in the interest of both campus and public health to require all currently eligible students to be vaccinated. Proof of full vaccination is currently required for all campus colleagues and all students 12 and older. In addition, all students age 16 and older must provide proof of booster shot by March 28, 2022. Proof of vaccination will also be required for 5–11-year-old students by the start of the 2022–23 school year. We will continue to honor valid medical exemptions.
