

UNIVERSAL DOWNLIGHT

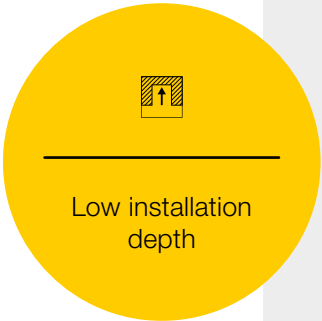

The best choice
for everyday use.

FIXED OR FLEXIBLE?

Several qualities in one – this is how the new SLV UNIVERSAL DOWNLIGHT is constructed: rigid or pivoting, with interchangeable bezels¹ in black, white, gold, and chrome.

Functionally and visually, it simply adapts to the most varied of rooms, and to customers' wishes. A downlight that impresses with performance and an affordable price.

WARM OR COLD?

Lighting defines the ambience.
The SLV UNIVERSAL DOWNLIGHT creates an ideal light for every room setting. The colour temperature can be set to four different levels: 2700K, 3000K, 4000K or 6500K and with the CCT switch, the setting can be quickly adjusted. The choice of wattage is just as simple – 5W or 8W.

Whether for the office, exhibitions, or living areas, every room will radiate in its own way.

	2700K	3000K	4000K	6500K
5W	410 lm	430 lm	470 lm	440 lm
8W	560 lm	610 lm	680 lm	640 lm

SIMPLE, BUT GREAT!

While the installation of the UNIVERSAL DOWNLIGHT is incredibly simple, the internal values are evident from the moment you switch it on: thanks to the CRI>90, the illumination of a space always seems pleasantly natural.

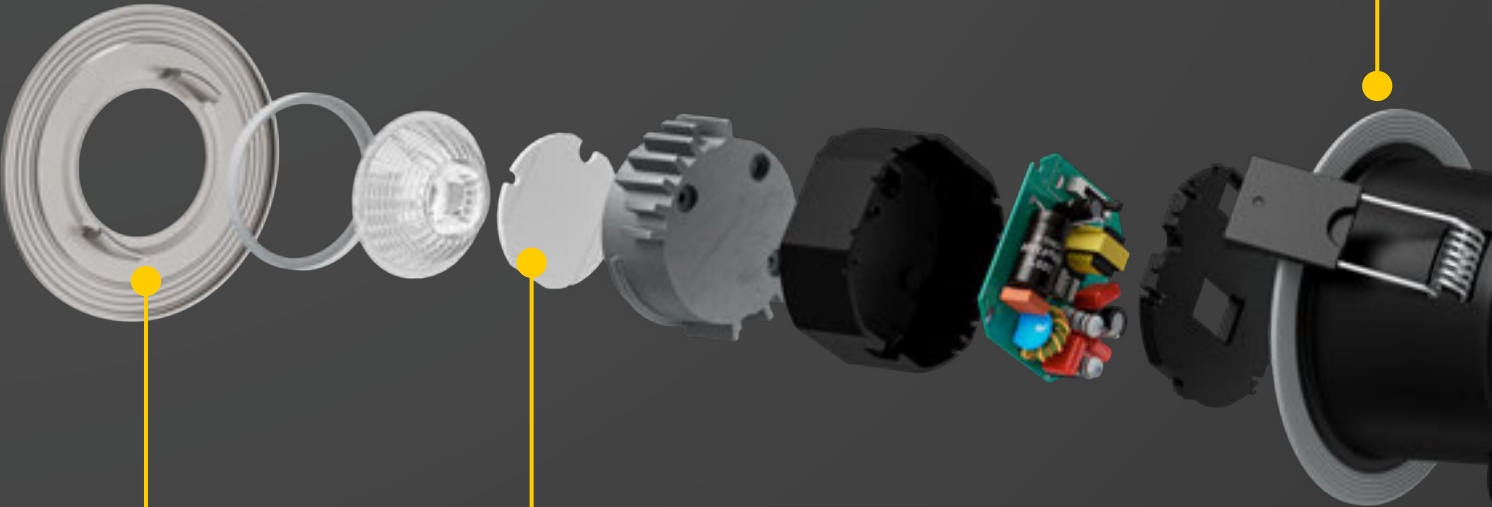

Lighting in its most beautiful form.
