

Information for our customers - Electrical and Electronic Equipment Act

On March 16th, 2005 the Electrical and Electronic Equipment Act was published. Among other reasons, it serves the implementation of the EC directive 2002/96/EC on electrical and electronic equipment (WEEE-Directive). As a company we are registered with the number WEEE DE 31762252.

We are legally obligated to inform you as our customers and are happy to do so with the following references.

In der nachfolgenden Liste sind jene Geräte aufgeführt, für die eine Rückgabemöglichkeit besteht.

Devices that were obtained from us after March 23rd, 2006 (so-called new waste) we will take back for reutilisation, treatment and disposal at our collection points, if and when they have turned into waste. We will take the devices back free of charge.

A list of our collection points can be found at www.interseroh-WEEE.de.

Devices from the same list that have been obtained from us before March 24th, 2006 (so-called historical waste) are, if and when they have turned into waste, according to legal regulation to be disposed of by their respective owners at a facility separated from unsorted municipal waste. These devices can therefore not be disposed of at our collection points.

All gas discharge lamps that are registered under the trade name FN Light as well as all LED Retrofit lamps (registered under the trade name SLV) can be disposed of at the public collection points. Since Aug 1st, 2013 the same applies for luminaires with built-in LEDs.
