

EU Type Examination Certificate

Date: 2022/11/21

n. **901224701/OE**

Validity: 2027/11/20

The hereunder described items of Personal Protective Equipment have overcome positively the "EU type examination" (Module B), proving their conformity to the safety and health requirements of the Regulation (EU) 2016/425 (Annex II)

Manufacturer: (Responsible of the PPE)	BOARDS & MORE GmbH Rabach 1 – A-4592 Molln – AUSTRIA.	
Type of PPE:	Motorcyclists' limb joint impact protector.	
Category of PPE:	II : "medium" risks. This certificate is based on reference standards listed below: its validity is no longer ensured should new version of the standards come into force.	
Model	"SHORTS_PLUS AMP" 47230-5910	
Description:	Shorts for bike/downhill use:	
FRONT:	 <p><u>design</u>: shorts; <u>external coating</u>: - black stretch knitting (CEYLON); - black stretch mesh (SOLE MESH); - black elastic knitting with black polymeric coating (ELASTIC TIMELY NERO + COVER 65MM); - black elastic waistband (ELASTIC SOFT 5CM); <u>padding</u>: anthracite foam PU; <u>internal coating (in contact with the body)</u>: <u>seat pad</u>: dark green knitting matched internally with grey foam material and white foam material in the central area; <u>hip protector</u>: art. "SC-1/KCAair" by SAS-TEC GmbH.</p>	
BACK:		
Technical Standard:	EN 1621-1:2012	Motorcyclists' protective clothing against mechanical impact - Part 1: Motorcyclists' limb joint impact protectors: requirements and test methods.
Intended use:	preventive use against mechanical impacts during biking/downhill activities. This item must always be properly connected and fixed to other suitable garments and with all other suitable P.P.E in order to ensure the most complete protection of the body.	
Size range:	"H" (= Hip) Type B <u>Commercial sizes</u> = XS, S, M, L, XL and XXL (the difference in sizes refers just to the textile parts dimensions).	
Technical File:	DC-15607	
Test report:	RCT n° 4113121/E	

EU Type Examination Certificate

Date: 2022/11/21

Validity: 2027/11/20

Functions and
performance levels:

To reduce the severity of injuries caused by impacts. The protectors give a limited protection against mechanical impact in case of accidents.

Method: planar face drop striker at 50 J;

Mandatory test: from the values of the transmitted force obtained at standard ambient conditions and after hydrolytic treatment (= wet conditions) the performance reached is = **level 1**.

The overall performance level achieved is therefore **level 1**.

Note: The Standard provides 2 performance levels with level 2 meaning the higher performance. The protective functions depend on the correct positioning of the protector, which falls within the responsibility of the user.

Marking:

Printed on a label stitched to the P.P.E. and displaying the following information:

- **CE Marking**;
- Registered Trademark of the Manufacturer on the front side (ION);
- item designation (article name and code: unique/unambiguous);
- pictogram for motorcycling use, with indication of the protector type and size as well as the overall performance level achieved during laboratory tests + nr. and year of the Technical Standard of reference;
- commercial size indication;
- the "i in the booklet" pictogram inviting the user to read the User Manual;
- additional info (on another label): PO number, date of manufacturing (month/year).

FRONT:

BACK:

NOTE: the Technical File contains a more detailed description of the PPE (material, method of assembly, photographs or drawings), performance data, safety functions and level of protection, elements of conformity to the basic and supplementary requirements. The Technical File is integral part of the present Certification, which has to be kept available by the applicant to be forwarded - upon request - to the entitled person (supervising body, Controlling Officer).
