you are awesome, are you EPIC?...

Senior Project Electrical Engineer

Urbanism

Ethos is a Greek word meaning 'character'. It is used to describe the guiding beliefs or ideals that characterise a community, nation, or ideology.

Ethos Engineering are mechanical and electrical consultants to the data centre, commercial, high-tech healthcare, and pharmaceutical sectors.

Our mission is to engineer systems that complement the purpose of each building we design, improve the immediate and surrounding community, and meet the objectives of its operations, inhabitants, patrons, operators, and staff.

We are ambitious, driven, innovative, and passionate about delivering excellence for our clients and their projects, and we never settle for delivering work quickly at the cost of quality. Our work environment is positive, professional, and supportive. We take our work seriously, but we like to have a lot of fun too and we place huge importance on having a great company culture. We have been recognised as a Great Place to Work 2019-2020 and again in 2020-2021.

About Ethos - Urbanism

Ethos Urbanism group deliver high quality, innovative Mechanical, Electrical and Sustainable design solutions for clients within the residential and commercial sectors. Our talented team of engineers and technicians approach each project with enthusiasm and a "can do" attitude which fosters excellent relationships with colleagues and clients within the industry. Driving meaningful innovation and the development of our team are a key priority for us and our growth ambitions are rooted in providing opportunity for every member of our team.
