

## Get ready for TCFD reporting with EarthScan

Climate-related financial disclosure is now mandatory for 1,300 of the UK's largest companies. By 2025, climate risk reporting will be compulsory across most UK businesses.

80%

of companies are confident in their compliance

60%

of reports do not meet TCFD criteria

source: FCA Study

Cervest interviewed 800 business decision-makers and found that:

46% struggle with complex aggregating data

43% report a shortage of actionable intelligence

38% have a limited understanding of the data

## TCFD-aligned reporting made easy with EarthScan

Our climate intelligence product EarthScan enhances reporting with asset-level physical climate risk insights, fast.

### TCFD recommendations

TCFD recommendations	Reporting requirement	EarthScan
Strategies a) and c)	Report on the physical climate risk facing the assets that you own, manage or rely on.	<b>ASSET-LEVEL PHYSICAL CLIMATE RISK INSIGHTS</b>  Get asset level insights on over 220m built assets (H2 2022) or upload your own assets. Baseline, segment and quantify risk across your entire portfolio in minutes.
Strategies a), b) and c) Risk Management a) and b) Metrics a)	Understand the impact of acute and chronic climate-related risks on your strategy and financial planning.	<b>RATINGS &amp; METRICS</b>  EarthScan provides standardized risk ratings and granular risk metrics, such as flood depth, across multiple hazards, time horizons and climate scenarios.
Strategy a), b) and c) Risk Management a) and b) Metrics a)	Disclose climate-related risks over the short (+5 years), medium (+10 years) and long term (+30 years), taking into consideration the useful life of an asset or infrastructure.	<b>MULTI-TIMESCALE</b>  Discover and quantify your climate risk exposure and forecast impact between 19710 and 2100 in 5 year time steps.
Strategy a) and c)	Consider different climate-related scenarios, including a 2°C or lower scenario.	<b>SCENARIO ANALYSIS</b>  Report under multiple IPCC-aligned climate scenarios with EarthScan: business as usual, emissions peak in 2040 and paris-aligned.
Risk Management a)	Create processes to identify, assess and manage climate-related risks above the materiality threshold.	<b>REPORT-READY INSIGHTS</b>  The on-demand Climate Risk Report automatically reports only on assets with a rating of 'Medium' risk or above.

## Discover and report on your physical climate risk

EarthScan provides a comprehensive solution to internal and external reporting needs.

### Map view

Quickly identify which of your assets and portfolios are most at risk with the dynamic map view.

### Executive summary

Generate and share an instant snapshot of your physical climate risk against the business as usual scenario, reporting only on risk above the Materiality threshold.

### Keyword explanations

Share climate intelligence insights with confidence. Each science-based insight is backed with explanations to make it accessible for all levels of climate literacy.

### Downloadable insights

Download each insight as a png image or CSV file for use in presentations, reports, investor summaries and more.
