

HR Software Made Simple

People are a critical component for any business making the effectiveness of your HR department just as critical. A strong HR strategy will put your business in good stead but ultimately will only be successful if effectively executed and managed.

Our cloud-based HR management software provides all the tools your business needs to manage your HR function. It provides a centralised HR hub for all aspects of your employee data and because it's cloud based it's accessible anytime, anywhere.

Whether you need to reduce admin and costs or need to improve security or performance, HR Escape does this and much more.

Key Software Features:

Approve and monitor holiday

Send communications to your whole team via text or email

Record working time and calculate wages

Never miss a key date again with our handy reminders

Allocate time and staff expenses to clients/projects/activities

Gain insights from detailed reporting

Manage appraisals and motivate employees

Simple to use interface

Store and access your employee data at the touch of a button
