ROTEST AIR

Unique – the first mobile All-in-One testing device for water pipes

Scan the QR code or
visit rothenberger.com

All-in-One

Compact, battery-powered All-in-One testing device combining a measuring computer, compressor up to 3 bar and necessary accessories ¹⁾ in a robust ROCASE system.

Easy to use

Efficient leak and load testing of pipe systems thanks to intuitive program selection and automatic tests in accordance to the standard.

Smart features

Real-time monitoring of the test on the device or in the ROTHENBERGER app including detailed reporting.

ROTEST AIR

All-in-One testing device

Combines a powerful compressor and a measuring unit in one device and enables easy, intuitive and full automated leak and load tests.

Application benefits

- Integrated compressor up to 3 bar. Test pressures and times are automatically controlled
- Internal recording of measured values and the option to create detailed reports in the ROTHENBERGER app
- CAS battery system – enables mobile use
- All-in-One: measuring device, compressor and necessary accessories in one case – fits up to two batteries and a charger¹⁾
- Easy to use - simple and intuitive with preset programme selection

Technical data

| | |
|---------------------------------|--|
| Dimensions | 585 × 385 × 140 mm |
| Weight | approx. 6 kg |
| Pressure | up to 3 bar |
| Battery system | CAS (Cordless Alliance System) |
| Leak and load testing with air | according to DIN EN 806-4 |
| Scope of delivery ¹⁾ | ROTEST AIR, high-pressure test plugs G1/2" and G3/4" with quick coupling, test hose with quick coupling, ROFAST 7" wrench plier with protection caps |

Important: Batteries and charger not included and available as accessories.

Integrated compressor

Automatic and efficient testing of pipe systems with air

Integrated display

Easy monitoring of test pressure and test time

Robust system case

Compressor and necessary accessories safely stored

CAS battery system

Allows mobile use thanks to battery power with CAS batteries

Storage space

Everything in one place thanks to secure storage of accessories and tools

Connectivity

Selection and start of the test program, real-time monitoring and creation of detailed test reports in the ROTHENBERGER app

Integrated compressor for efficient generation of the necessary air pressure

Menu-guided test computer for automatic and standard-compliant test programs

Battery-autonomous and powerful operation, thanks to CAS system battery interface
