ROPULS EVO

POWERFUL PULSES FOR CLEAN SYSTEMS

The flushing compressor for heating systems and drinking water pipes that makes your job easier.

INCREASE EFFICIENCY

Removes biofilm, deposits and buildup from pipes.

ENSURE HYGIENE

Removes contaminants for hygienic pipes.

BOOST PERFORMANCE

Removes limescale for efficient heating.

rothenberger.com

Wireless data access

Real-time monitoring and
logging in accordance with
EN 806-4:2010 via the app

Easy operation

Large buttons with
straightforward controls for
quick programme selection

4 different flushing programmes

Different pulse intervals for optimum
flushing results in every application

Quieter during operation

Up to 50 % quieter than the
previous model for greater
user comfort

Integrated protection

Protects pressure gauges and
connections during transport

Universal G1" connection

Quick connection to
drinking water systems or
heating circuit manifolds

Pulse pressure display for easy monitoring of the
flushing process.

The flow direction can easily be reversed using the
optional change flow direction valve.

Flushing reports can be created quickly and
conveniently via the app.

More power

Optimised air-water pulses remove deposits thoroughly.

Extremely robust

The robust design ensures reliable performance on the job site.

Smart in use

The app sends the report directly to the customer.

ROPULS EVO makes all the difference: thorough system cleaning ensures efficient heat transfer, hygienic pipework and reliable system operation.

More cleaning power with every pulse

Air-water pulses delivered at short intervals increase cleaning performance and remove deposits particularly thoroughly.

ROPULS EVO

Flushing compressor

For desilting and cleaning heating systems and flushing drinking water lines in accordance with EN 806-4:2010, with a built-in reporting function.

Anwendungsvorteile

- One device for a wide range of applications, helping ensure safety and energy efficiency:
 - Flushing underfloor heating systems and heating circuits
 - Flushing drinking water lines in accordance with EN 806-4:2010
 - Hygienic refurbishment of drinking water pipework
- Up to 3× the air-pulse cleaning power of the previous model: for fast, thorough cleaning
- 4 powerful flushing programmes for flexible use
- One-button operation for quick and easy programme selection
- Robust design with protected internal components and pressure gauges

Technische Daten

Ø Working range	6–50 mm (1/4–2")
Operating pressure	6.5 bar
Flow rate	5 m³/h
Tank capacity	11 l
Water inlet pressure	<0.55 MPa (5.5 bar)
Weight	26.300 kg (net)
Operating noise level	67 dba
Power supply	230 V / 50 Hz

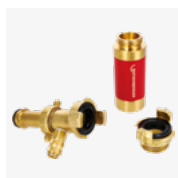

Model	Weight	PU	BP	No.
ROPULS EVO flushing compressor, EU	28.500 kg (gross)	1	58	1000005678
ROPULS EVO flushing compressor, CH	28.500 kg (gross)	1	58	1000005679
ROPULS EVO flushing compressor, FR	28.500 kg (gross)	1	58	1000005680
