# The Cloud will modernize your law firm

The legal industry is sometimes slow to change, and many law firms continue to rely on premise-based servers for document storage and practice management software, despite the added expense and risk that these systems entail. The Cloud not only makes your system more secure, it also enables you and your colleagues to effectively work from any location, with the latest software.

## Transition to the Cloud, while maintaining business continuity

Modernizing your firm is easy — LEAP's practice management solution provides PCLaw | Time Matters™ users with a fast, seamless migration path to world-class, cloud-based software, where you can access your data from anywhere, at any time, on any device, even without an internet connection. LEAP provides automatic software updates and document backups, so you'll always have access to your matters, even if you can't get to the office.

“

The partnership between LEAP and PCLaw | Time Matters™ is focused on providing the best possible experience for law firms that are transitioning to cloud-based technologies. Firms that migrate to LEAP will experience improved collaboration and efficiency, reduced IT and overhead costs, and best-in-class training and support.

**Amy McArthur, CEO  
PCLaw | Time Matters™**

## Reducing your overhead by simplifying your IT

When you migrate to LEAP, you can get rid of your server forever, and eliminate the associated risk of server failure, system downtime, data hacks, insufficient system interoperability, data corruption, and more. LEAP takes care of all your software updates and data backups. Since there are no servers to worry about, you eliminate the need for employed or outsourced IT staff. Using LEAP removes the worry and expense of maintaining your own IT, while giving you a modern legal practice productivity solution.

# Law firms need an up-to-date practice management solution

LEAP provides the same depth of functionality that PCLaw|Time Matters™ customers have grown accustomed to, but with many additional time-saving features. With LEAP, law firms benefit from an all-in-one solution that enhances document and court form management, legal accounting, time tracking, and more.

LEAP is one seamless system that includes:

- ▶ Management of cases and documents from anywhere, anytime, from multiple devices.
- ▶ Easy and automatic tracking of time spent on emails and phone calls.
- ▶ Automation of data entry for new cases, with online intake forms that can be imported directly into LEAP as a new matter.
- ▶ Integration with Outlook and Office 365.
- ▶ Compliance with general ledger and trust accounting rules of professional responsibility.
- ▶ A top-level view of how your firm and lawyers are performing.
- ▶ Easy association of contacts with matters.
- ▶ Secure sharing and collaborating on documents with staff, clients, and third parties in real time.

By providing an all-in-one legal practice productivity solution that improves efficiency, law firms switching to LEAP simplify their IT and become more profitable.

“

Our firm had a great experience transitioning from PCLaw. LEAP Software provides great functionality, seamless integrations with various applications, and exceptional reporting capabilities. Each day, LEAP continues to leave us impressed with its remarkable features.

**Wasef Ahmad, Lawyer, Waryah Law**

# Law firms want software that does more and has everything they need

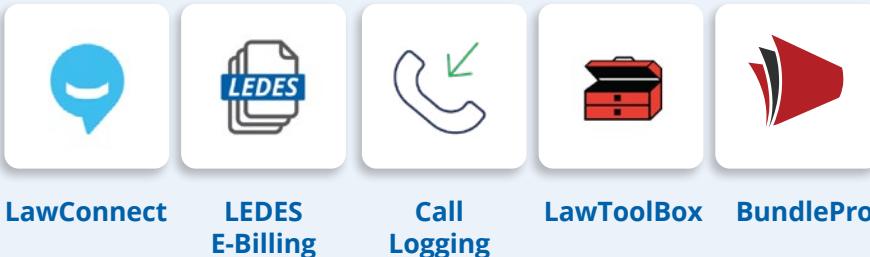

LEAP's legal practice productivity solution provides law firms in Canada with the best practice management solution available, offering:

- Practice management
- Legal publishing
- Document assembly and management
- Legal accounting

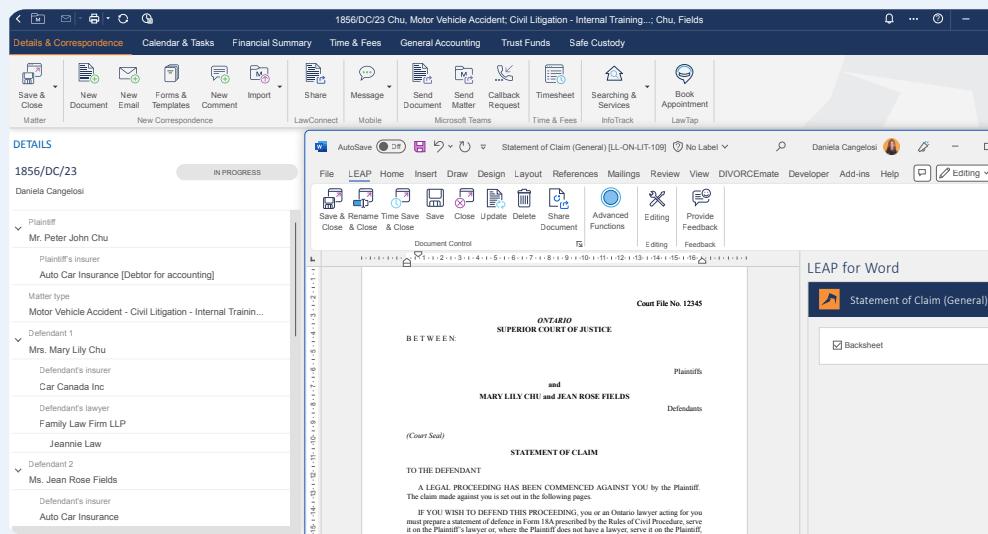

## The LEAP Marketplace

Along with our exclusive DivorceMate integration, many other useful legal assistance apps are just a mouse-click away, from the LEAP Marketplace:

## Automated Legal Documents and Court Forms

LEAP has a highly experienced team dedicated to the creation and maintenance of automated, pre-configured provincial and federal legal forms. Now, you can access more than 2500 forms and precedents for the common areas of law. Benefit from a team with over 25 years of expertise creating documents and forms for law firms.

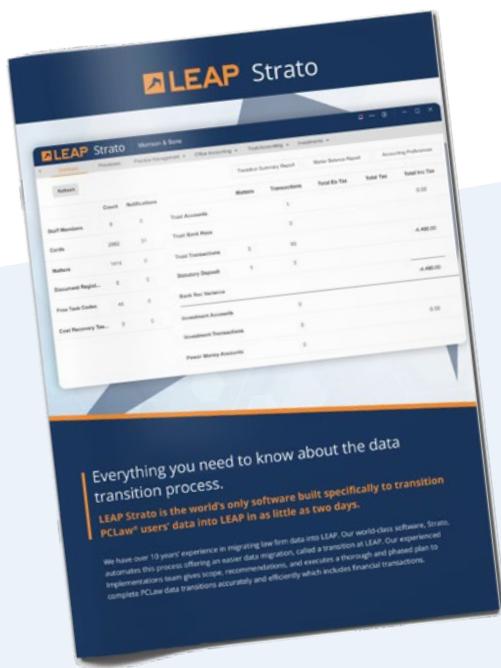

# Lawyers who switch to LEAP want an easy data migration

LEAP has the world's only software, Strato, designed solely to move PCLaw | Time Matters™ users' data in as little as two days. LEAP has over 10 years' experience in data transitions, during which we have developed our world-class transitions software that automates the process.

LEAP's Strato migration software makes your data transfer easy:

- Our experienced Transitions team is available to scope, give recommendations, and execute a thorough and phased transition plan, making us the leaders in completing PCLaw | Time Matters™ transitions accurately and efficiently.
- LEAP provides a report that explains potential issues to help you resolve any roadblocks before your LEAP transition.
- Data is imported using LEAP's exclusive Strato software, which has been specifically designed for PCLaw | Time Matters™ transitions. By performing 50 data migrations per week worldwide for firms like yours, the process is very fast and more reliable than traditional data migration systems.

**Bringing your law firm into the most modern, secure state is easier than you think. Migrating to the Cloud is the best way to reduce administrative costs and increase your firm's profitability.**

**Upgrade to LEAP today for a premium, all-in-one practice management solution.**

**\*Estimate only. Actual transition time will be addressed based on the firm's setup and the quality of their data.**

PCLaw | Time Matters™

LEAP USA have spent numerous months perfecting our systems when migrating clients from PCLTM™ to LEAP prior to coming into Canada. The experiences and lessons learned will give all LEAP Canada clients the added benefit and client satisfaction as noted by our champions below.

“

LEAP's document management system enables our team to locate documents quickly and organize our files more effectively. LEAP's intuitive timekeeping and accounting functionality has provided more autonomy to our team, which has made the transition from PCLaw® that much smoother.

*Lana Wiens,  
Cozens and Wiens LLP*

“

Transitioning to LEAP from PCLaw® definitely helped our firm establish new processes that have led to more impactful reporting. The transition was smooth, and handled well by the LEAP Support Team. The training, assistance, and instructions we have received from our designated LEAP Client Success Consultant ensured any questions or concerns we had were taken care of. We are happy we switched to LEAP.

*Aaron,  
SO Family Law*

“

Our office loves how the main features of LEAP – practice management, legal accounting, and more – flow together with Microsoft 365 integration as an easy to use, all-in-one solution. Compared to our PCLaw® software, we're able to more easily find, update, and manage documents, which makes our process much more efficient.

*Nancy McKay,  
Smith and Associates*
