

Streamline your reporting and invoicing

Send accurate reports and invoices, every single time

With over 200 standard reports and unlimited customisation, reporting and invoicing has never been easier.

Holistic business information drives better decision-making, increasing growth and profitability. Get the visibility - the clarity - that you've been dreaming of with our reporting and invoicing module. Through date filters, sequence ordering, process triggers and more, you can see several views from one single source of truth, and drive decisions based on data.

Get complete profit assurance

Recognise the real potential of your business with our powerful reporting engine.

By understanding the true margin of jobs and not just the estimated, you can forecast accurately and confidently, taking advantage of genuine margin uplift opportunities.

Best of all, you know exactly where your business is heading, reducing risk and minimising the stress of running it. Trusting the numbers never felt so good.

Work on your business, not in it.

Analyse your costs like never before

Know how much you're spending on a job..

The cost analysis features in Clarity deliver absolute precision on estimated vs actual costs, combining real-time data into interactive Pie Chart views for easy interpretation.

Timesheets and expenses can be added so that all costs are entered and analysed in one place. Favourite templates are saved so you can get to the information quickly next time.

Get a newfound level of visibility, and drive higher margins.

Invoicing and Accounting

More cash, less hassle.

Make your accounting team work smarter, not harder. Clarity manages the final part of the order processing system so your cash flow stays at full throttle. Create partial or full invoices or credit notes. Manage repeat invoices from our unique 'recurring' templates. Search for historic invoices easily and create batch and recurring invoices using simple processes.

Connect with the **leading accounts packages**

Reduce admin with our integrations.

Clarity integrates with Sage and QuickBooks software, so you don't spend all day long typing the same thing in different systems.

Automatically create accounts for new contacts sent for the first time from Clarity. Use consistent invoice reference numbers. Sync your nominal codes. Transfer project costs.

It's all possible with our integration. And it works for Sage Instant, Sage 50, Sage 200 and QuickBooks.
