

Justin Martin
Program Director
Sustainable Emerging Technologies

Justin L. Martin received a bachelor's of science in Chemical Engineering in 2012 and a Masters of Business Administration in 2019 from the University of Wyoming. Out of college, he worked for Halliburton as a Completions Engineer, where he gained a multitude of experience working across the rocky mountain region and North Dakota.

In 2013, he started working for Western Research Institute as a Senior Engineer in the heavy oil technology center. During his time at Western Research Institute, he has been involved in the design, operation, and evaluation of the heavy oil partial upgrading technologies. In 2019, he was promoted to the manager of the heavy oil technology center and in 2020; he was promoted to the program director for Sustainable Emerging Technologies.

He is married to his wife Skiy and have been blessed with their son Brycen and daughter Brynlee. Outside of work, Justin is an avid outdoorsman where he spends time fishing, hunting, and camping. During the summer, he can often be found at the golf course, where he enjoys spending time with this family and teaching his kids how to play.
