**RE: WILDFIRE DISASTER CLAIMS DATA CALL; BULLETIN 2022-012**

Beginning April 22, 2022, the Honorable Michelle Lujan-Grisham, Governor, declared a series of wildfire emergencies in New Mexico. Subsequent to the declaration, the Superintendent of Insurance issued Bulletin 2022-012, requiring companies to submit monthly reports of claims information associated with the wildfire events taking place in 2022.

While compliance with Bulletin 2022-012 has generally been commendable, some companies have missed one or more monthly reports. By way of this Bulletin, the Office of Superintendent of Insurance would like to remind companies of the requirement to submit wildfire-related claims data per the original Bulletin.

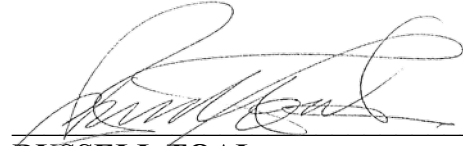

As stated in Bulletin 2022-012, the January 15<sup>th</sup>, 2023 submission containing cumulative claims data as of December 31, 2022 will be the last report of the wildfire claims data, so it is especially important that all companies make a timely submission in order to ensure a complete and accurate dataset and avoid additional data calls on this subject in the future.

The data reporting requirements remain the same, and companies can reference the requirements and submission instructions in [Bulletin 2022-012](#), issued on June 16, 2022.

Failure to submit a report may result in the imposition of fines.

**ISSUED this 27th day of December, 2022.**
