EC DECLARATION OF CONFORMITY

We Anteprima Brands International Ltd

Of 1, Ferris Buildings, 3rd Floor St. Luke's Street; Guardamangia; Malta

In accordance with the following Directive(s) for Childcare products:

EN 55104-1:2021, EN55104-2:2021
Electromagnetic compatibility - Requirements for household appliances, electric tools and similar apparatus - Part 1: Emission, Part 2: Immunity - Product family standard

EN61000-3-2:2019+A1:2021 Electromagnetic compatibility. Limits for harmonic current emissions for equipment input current up to and including 16 A per phase

EN61000-3-3:2013 +A2:2021 Electromagnetic compatibility. Limitation of voltage fluctuations and flicker in low-voltage supply systems for equipment with rated current up to 16 A

RoHS Directive (EU) 2015/863 amending 2011/65/EU

Regulation 1935/2004 on materials and articles intended to come into contact with food BS EN 14350-1: 2004 Child use and care articles – Drinking equipment

When used as specified, the overall migration as well as the specific migration do not exceed the legal limits. The test was performed according Commission Regulation (EU) No 10/2011 of 14 January 2011 Annex III and Annex V for selection of condition and EN1186:2002 for selection of test methods; En 1186-3:2002 aqueous food simulants by total immersion method.

Hereby declare that:

Equipment	Formula milk maker/mixer
Model number	Nuvita 1180
Factory model number	WX-801B

Is in conformity with the applicable directives

Tel: +356 20106811 - Fax: +356 20106812

I hereby declare that the equipment named above has been designed to comply with the relevant sections of the above referenced specifications. The unit complies with all applicable Essential Requirements of the Directives.

Compliance with the overall migration limit :
Overall migration as well as the specific migration do not exceed the legal limits; to demonstrate compliance with EU regulation no. 10/2011 and the absense of heavy metal, a global migration test was performed using: Acetic acid in aqueous solution (3%), Ethanol in aqueous solution (50%), at a temperature of 100 ° C for a duration of 24 hours

- Migration tests were performed according to Regulation (EC) No. 10/2011:
  i. Food type that comes into contact: all type of food
  ii. Contact time and temperature : 24 hours – 100 degree
  iii. Contact surface / food volume ratio : all stainless steel material tested comply with the acceptable migration limits for the applicable migration limits for the applicable ration of surface of food contact material
- Plastic does not contain substances (monomers or additives) subject to limitations according to annex I or II of regulation (EC) No. 10/2011.
- Substances also authorized as direct food additives (“dual use additives”) are not used for the manufacture of stainless steel material.
- No functional barrier made from stainless steel is used in the above mentioned product
