Foreword

We are proud to continue to embrace and promote diversity. As a company, we believe love is love and we showcase that fully in this issue specifically in our wedding segment. In this issue you will hear from area wedding professionals as they share their advice from dealing with Covid-19 to wedding planning to hiring your wedding team of businesses. You will feel reassured that we have adapted as an industry as well to better serve you. We are just as anxious as you are for 2021 to ring in a little normality! Read how four real wedding couples forged ahead with their weddings this year, from a micro-wedding with a flower-filled elegantly transformed barn, to a military wedding honoring the groom's chosen career, to a couple married on the anniversary of their first date when they were 13 to a tear-filled date change filled with love. As always, they inspire us with their stories.

Sit back, have a cup of coffee (or wine) or a fancy cocktail this magazine was created for you.

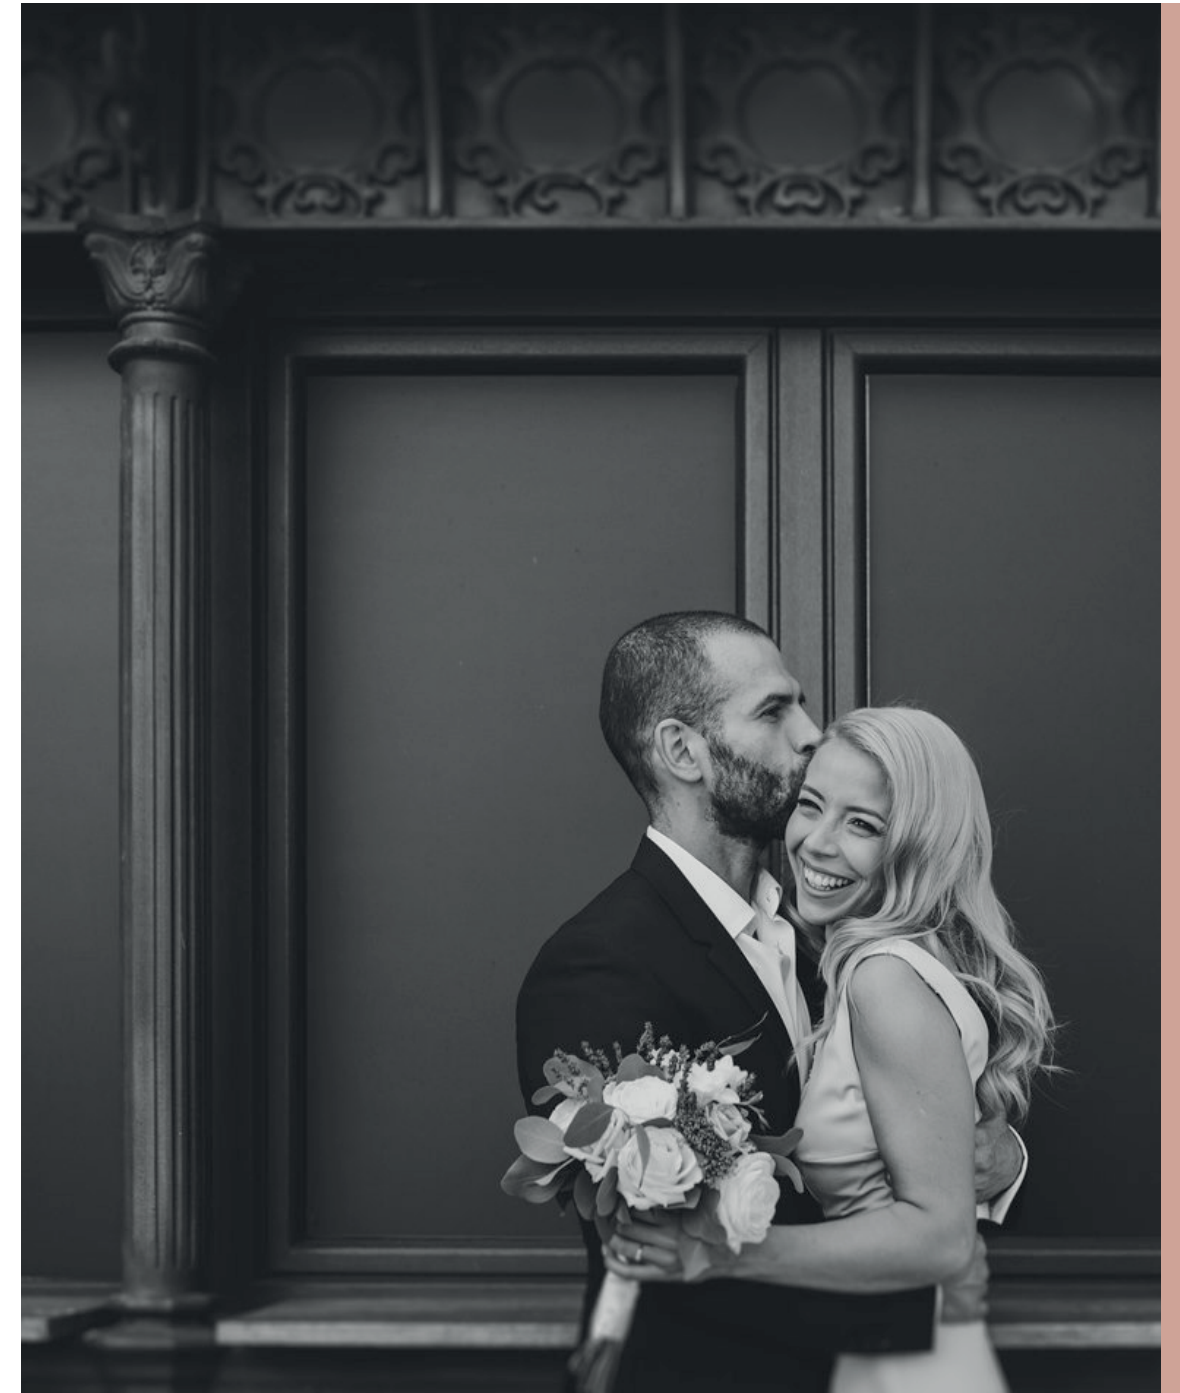

With much love.

LOVE

Love encompasses a range of strong and positive emotional and mental states, from the most sublime virtue or good habit, the deepest interpersonal affection, to the simplest pleasure. Most commonly, love refers to a feeling of strong attraction and emotional attachment.

About Us

WE'RE OANA & ALEX,

Two romantic, playful people, madly in love with the things we do.

Transylvanian based photographers, with a passion for destination weddings and in a constant search for beautiful feelings.

Capturing your moment, your small little gestures, the touch of a hand, the light in your eyes when you look at each other are what makes us position ourselves discreetly enough to let you express everything your heart has to say

Capturing your moment, your small little gestures, the touch of a hand, the light in your eyes when you look at each other are what makes us position ourselves discreetly enough to let you express everything your heart has to say. It's those emotions couples share in their wedding day that fuel our cameras and constantly make us improve ourselves. We are a deeply connected team, not just an assembly of strangers collaborating on a project.

This is what makes us unique in covering all the angles of your event, as having found love ourselves lets us discover yours. No matter where in Europe your special day takes place, we are happy to travel and tell your story for future unforgettable memories.

We take your engagement photos and turn them into custom magazines displaying all of your detailed information for your special day. These full-color magazines serve as a beautiful keepsake that your guests will not throw away! These magazine can be used in many different ways!

Alex

PHOTOGRAPHER

Alex is the founder and owner of Still Light. Sometimes, dreams become passions. They dwell within us, sometimes for years, but may suddenly ignite from a single spark and enter reality. For me, photography is one of those passions. Not only do I love what I do, but I also capture the couple's love in return. When I inherited my father's old camera, I did not know what to use it for. At the time, I was managing a computer shop in Paris.

NON OL S E S

Being a Photographer

HOW PHOTOGRAPHERS REALLY SPEND THEIR TIME

Experience tells me that non-photographers, or amateur photographers often have an idyllic view of the life of a professional photographer. It's all romping around with a pricy camera, with hot models in ridiculous locations, epic studios, and fancy parties. It's just not true.

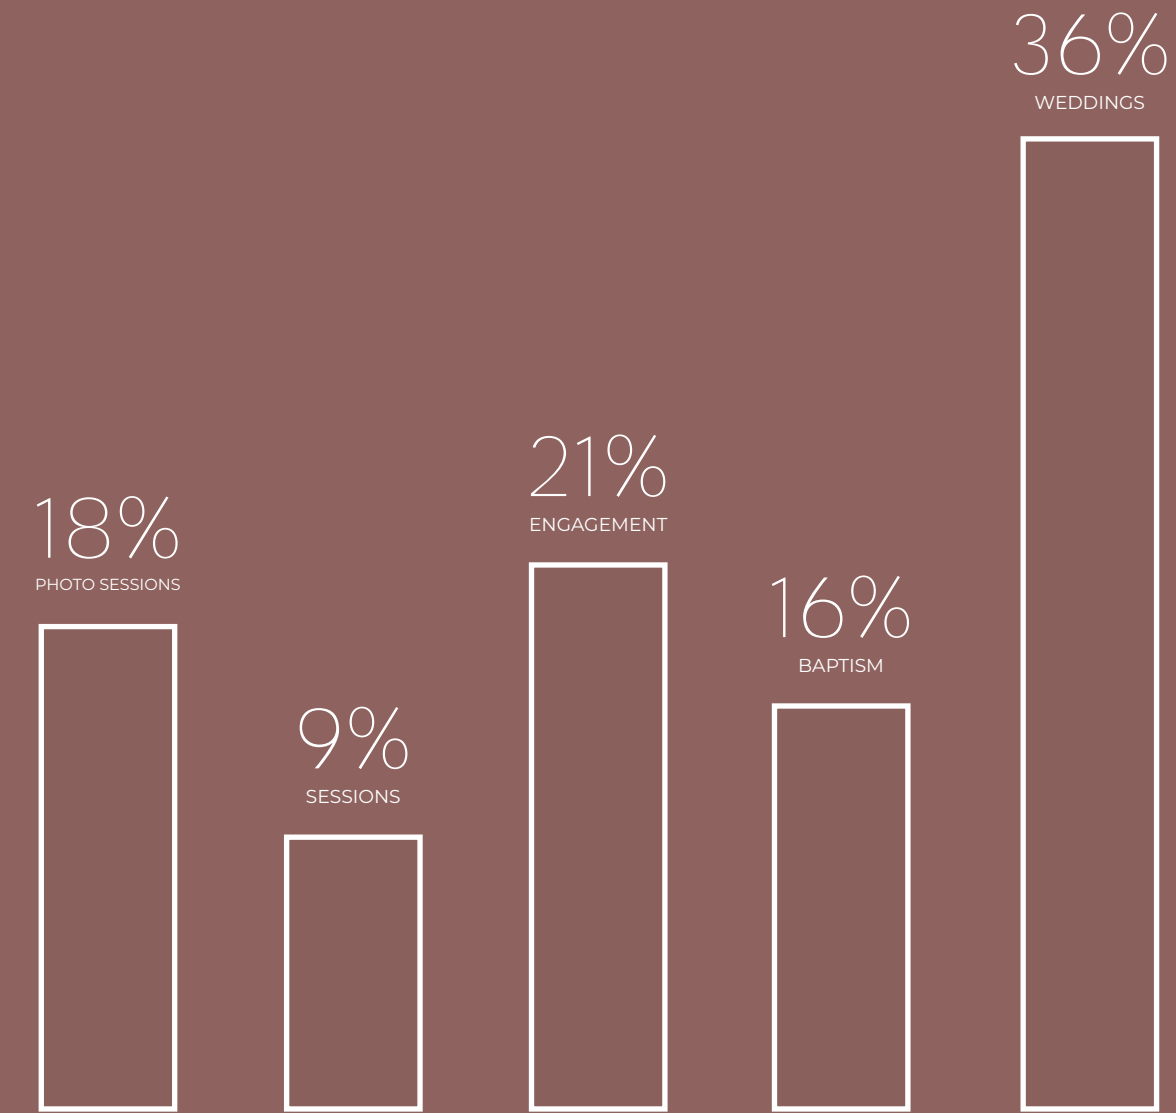

PHOTOGRAPHERS

The stuff you've gotta do outside the "aura" of the job—whether you're thinking photographer, rockstar, or astronaut, firefighter or poet—there are ditches the have to be dug, hoops that have to be jumped through, bullshit that can derail the essence of what you do.

WEDDINGS AND MARRIAGE - STATISTICS & FACTS

Worldwide, the countries with the highest annual rates of marriage are West Bank & Gaza, Fiji, Egypt, the Bahamas, and Uzbekistan, each with over nine marriages per 1,000 people. West Bank & Gaza heads the ranking with ten marriages per thousand people as of 2021. In contrast, the lowest annual marriage rates are found in Germany, French, and Denmark.

WEDDING STATISTICS AND INTERESTING FACTS ABOUT WEDDINGS

In the past, the typical engaged woman was 21, lived at home and had her wedding mostly planned by her mother. But now, many of these smaller enterprises also do other events and don't necessarily break their business down into wedding versus non-wedding.

Each workshop includes a detailed analysis and review into how I run my business day-to-day, how to make it work, find bookings, branding and SEO, shooting the dance floor (my favourite bit of the day!!!), and much more.
