AI Document-to-Form Automation Engine

- OCR + LLM structured data extraction
- Template management
- Modularity

3-5x
Faster processing

No
Per-document fees

No
Vendor lock-in

1-day
Integration

Compliance & Security

GDPR - SOC 2 - HIPAA - PCI DSS - ISO 27001

- On-premise data security
- Local LLM support
- TLS encryption
- Full audit trail

Direct Developer Support

✓ Transparent architecture (C4 model)

✓ No black box

✓ Customization-friendly

✓ Client-driven product roadmap

Comparison: SaaS vs. AutoFill

Feature	Standard SaaS	AutoFill
Data Residency	Data leaves your perimeter for the cloud	100% On-Premise
Infrastructure	Black-box, limited control	Full control over your environment
Connectivity	Requires external API keys and internet	Can run with local LLMs offline
Privacy	Shared multi-tenant environment	Isolated dedicated environment
