- Local logging
- Full audit trail
- End-to-end call tracing

Direct Developer Support

- ✓ Architecture Documentation (ADR)
- ✓ No black box
- ✓ Customization-friendly
- ✓ Client-driven product roadmap

Comparison: SaaS vs. AutoConfirm

Feature	Standard SaaS	AutoConfirm
Deployment	External cloud (Voice & Data)	Full On-Prem / Client VPC
Logic / Architecture	Black box logic	Transparent (ADR, C4)
Control / Infrastructure	Limited / Shared environment	Full / Isolated environment
LLM / API	External API keys	Local LLM support
Connectivity	Single voice provider lock-in	Any SIP provider support
