MYCREATION

Cords

Custom tailored with a range of creative shape and finish choices

Industrial retro design

Design your own Cords filament luminaire. Choose a single filament bulb with cord or combine several with different options for size, color, texture and vintage bulbs, you can perfectly match everything with your project style.

Surprisingly adaptable

Choose a single filament bulb with cord, combine several or turn things upside down and create a led filament table lamp. With different options for size, color, texture, and vintage bulbs, you can perfectly match everything to your project interior.

Create an atmospheric spotlight

Edison already captured the romance of a single, lit candle in his original design for the filament light bulbs of the future. Influenced by this, with the Cords filaments line a softly glowing carbon filament Edison bulb is replaced with a modern, dimmable LED light bulb creating an authentic feel and soft white glow of vintage light bulbs yet adds a sustainable character.

For the most suitable decorative effect and the most healthy light effect please see below our advised Philips bulbs

Highlight the space with style

The industrial design of a retro light bulb contrasts beautifully with the natural shapes and colors of wood. It brings life to steel and adds a warm, natural glow to a concrete floor or wall. Lighting is much more than a functional part of the room: with the decorative energy of filament lighting, you tastefully unify your vision and interior.
