

AVONITE™ Flex by Trinseo

The Next Evolution in Hot Tub Surfaces

Superior Slip Resistance for Safer, More Enjoyable Hot Tub Experiences

When it comes to safety and comfort, **AVONITE™ Flex** sets the standard. Engineered to provide 2x the slip resistance of standard glossy acrylic, **AVONITE™ Flex** is the ideal choice for hot tub surfaces.

Its matte finish enhances grip, reducing the risk of slipping in and around the hot tub, promoting a secure and relaxing experience.

Set yourself apart with

AVONITE™ Flex

Unmatched Slip Resistance

AVONITE™ Flex offers more than twice the slip resistance of traditional glossy acrylic surfaces, proven through third-party lab testing using DCOF standards. This means improved safety with every use.*

Chemical & Stain Resistance

AVONITE™ Flex is designed to stand up to the harshest environments. Resistant to stains and chemicals, it helps your hot tub maintain its pristine appearance for years, even with frequent use.*

Durability & Performance

Crafted with highly thermoformable materials, AVONITE™ Flex allows for precision detailing and high levels of customization. This results in a visually striking hot tub with robust durability to match.*

UV Stability for Long-Lasting Beauty

Say goodbye to fading and degradation. AVONITE™ Flex is built to withstand UV exposure so that your hot tub's surface stays vibrant and durable over time.*

*Results from third-party lab DCOF testing of AVONITE™ Flex vs. I-300 Acrylic Sheet have ASTM testing
