# XRS Overland Xtreme Rack for Truck and Jeep Beds

The foundation of Go Rhino's XTREME RACK SYSTEM (XRS) is the Overland Xtreme Rack which has a contoured, application-specific fit and features Go Rhino's exclusive 4-CORE cross bar system, the extruded track system that works with any 1/4x20 hex bolt, is Quick Fist®-compatible and provides unlimited accessory mounting options for gear and trail tools from most major brands.

- ▶ Compatible with most rooftop tents - 300 lb. dynamic/600 lb. static weight rating
- ▶ Constructed with a combination of steel and aluminum for an optimum balance of strength and weight savings. 2" diameter front and rear aluminum cross bars tie the rack together
- ▶ Includes one Rhino Accessory Gear Plate that can be attached on top, sides or interior. Additional plates can be purchased (#5950020T).
- ▶ No drill, complete bolt-on installation. Available with factory bed track mounting systems or bed rail clamp on mounting brackets.
