

Storm damage prevention

Seven ways to protect your property from storms

Ensure the outside of your property is well maintained including checking for any loose roof tiles or slates and ensure flat roofs are not showing any signs of cracks or splits.

Check aerials and satellite dishes are securely fastened.

Check your gutters and drains around your property are clear of any obstruction or debris. Gutters should be checked and cleared regularly.

Park vehicles clear of possible dangers and if in a garage, close the doors. Avoid accidents by getting annual checks on your tyres, brakes and lights.

Do not park cars near seafronts. Beware of debris and potholes if driving. Running over potholes can cause serious damage to your vehicle or bicycle.

Close and securely fasten doors and windows, including outside sheds.

Make sure garden furniture and other outdoor items are secured to ensure they are protected from the wind.

Speak to your broker if you have any questions about your property cover
