Take the Plunge with a Personal Pool!

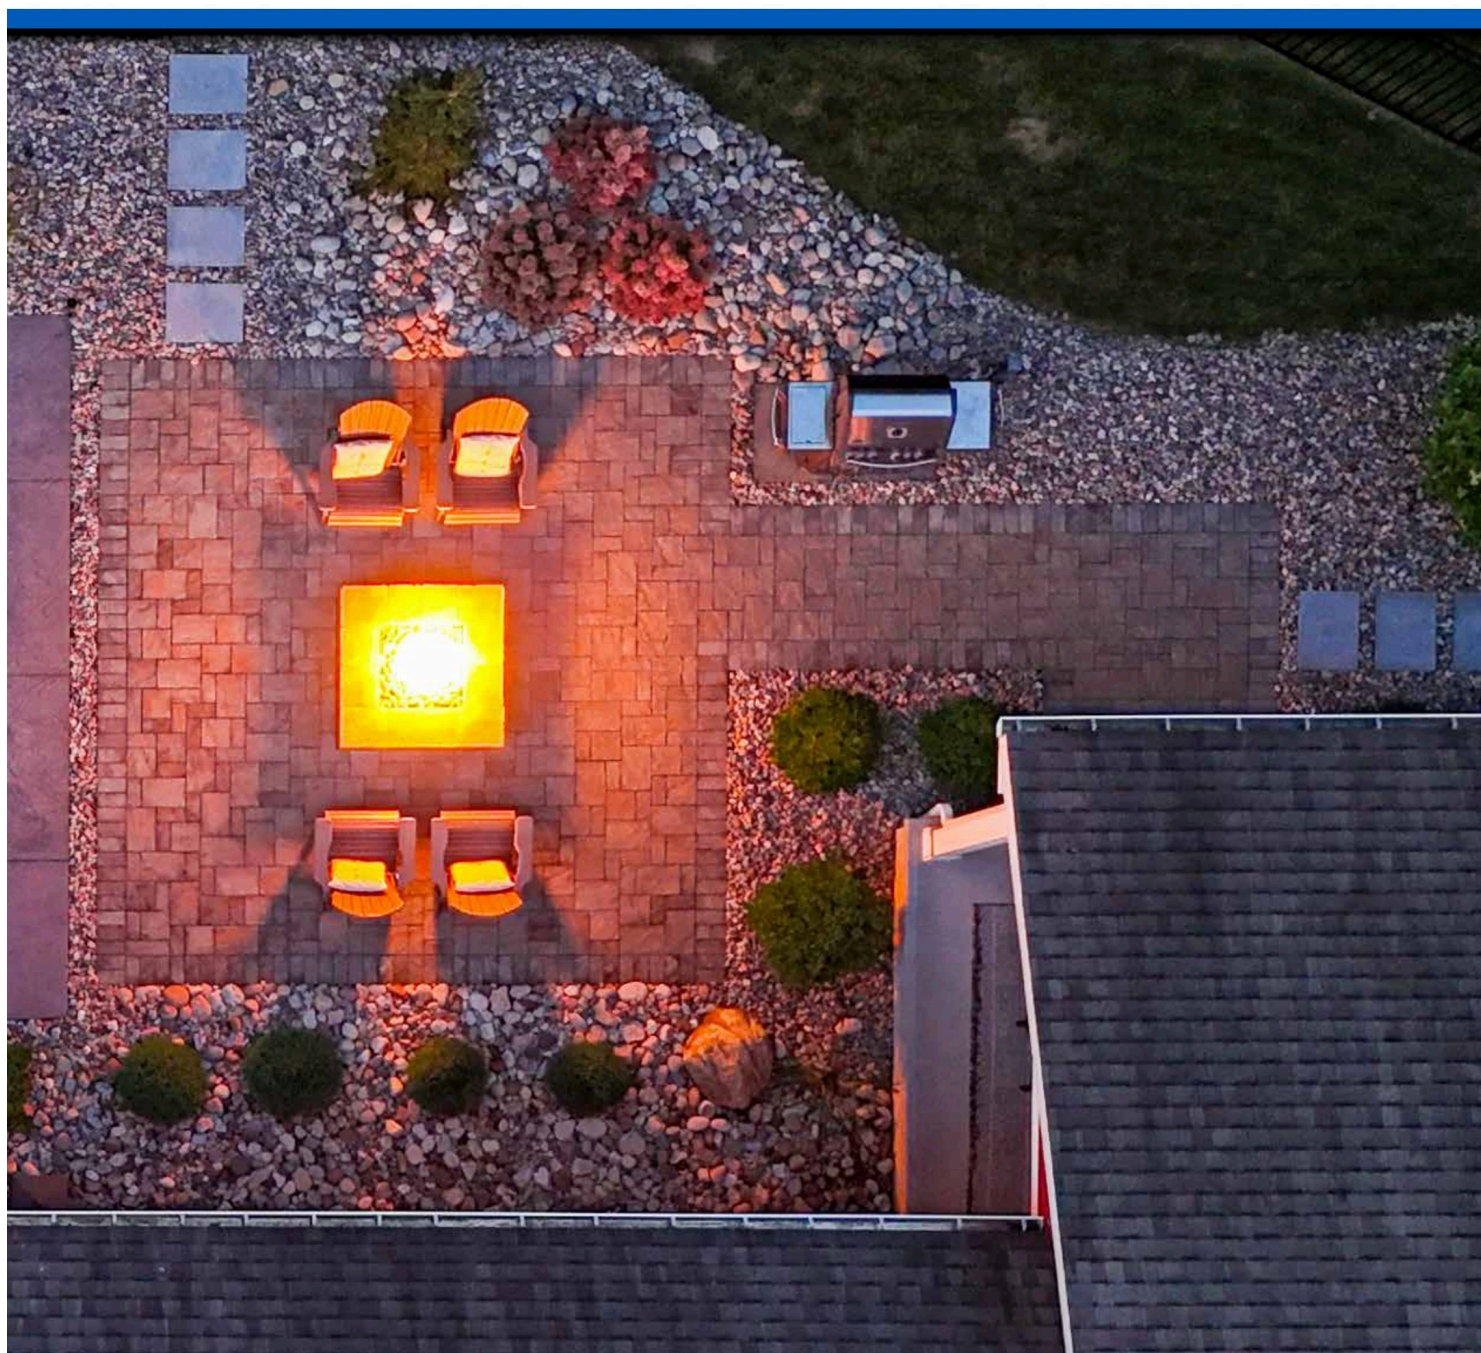

Choosing your new swimming pool is a personal decision... After all, it's one of the biggest investments you'll make in your lifetime! As yards get smaller and consumer trends change, more and more people are opting for a smaller pool; one that requires less maintenance and can be used as a peaceful place to hang out, relax or take a quick dip to cool off.

If that sounds like the pool for you, let us introduce you to the Personal Pool! Our standard line-up has been designed to fit your personal preferences. Whether your priorities be entertainment, fitness, family, or tranquility, we have a Personal Pool to meet your individual needs.

Plunge pools have become one of the fastest growing segments in the swimming pool category. Due to their more intimate size, they can be accommodated in nearly any yard, but don't be fooled! The Persunal Pool still offers many of the same features that are available in standard size pools. Your Persunal Pool can be installed inground or semi-inground with a seating ledge around the entire pool just to dip your feet in on a hot day. You can even install custom fascia if you choose a semi-inground installation.

The Persunal Pool has it all... quality, flexibility, features and beauty. So take the plunge... with the Persunal Pool!

Let's start by talking about the beauty you can see in your Personal Pool!

Appearance is everything and your Interior Finish™ will be one of the first things people see when they look at your pool. You can choose between four standard Interior Finishes™ that have been very carefully selected to enhance the overall aesthetics of your Personal Pool.

Our Interior Finishes™ are made from the finest virgin vinyl making them superior to the industry standard. They are also treated to discourage bacteria and fungus growth. We finish with a clear acrylic topcoat to resist ultraviolet rays and prevent premature fading. All of these details ensure a beautiful finish that's long lasting and easy to maintain.

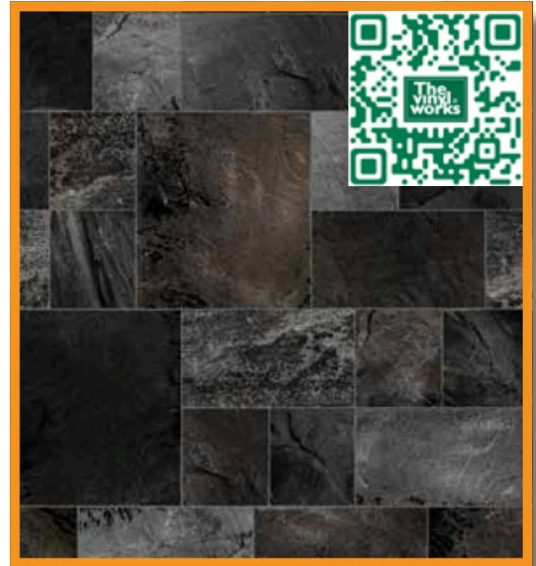

That's a Personal Pool.

The Mighty Little Pool

A pool's personality begins underneath the surface.

Your Persunal Pool is manufactured using the highest quality G-235 zinc-coated, galvanized steel for a powerful framework. It will withstand the most extreme conditions because it's also fortified with Imperial Armor Guard... an additional layer of protection designed to prevent corrosion for the life of your pool. All of this makes for a sturdy and reliable backyard sanctuary.

The panels of your Persunal Pool are uniquely engineered to incorporate a 7" flange top and bottom as well as 16" wall stiffeners on center to bolster strength. The panel walls are then supported with superior A-frame braces that hold the pool walls strong and true. This means the beauty on the outside of your Persunal Pool is supported by strength on the inside.

Your Persunal Pool also comes standard with a 54" wall giving you an average water depth of 48". That's an additional 12" of water compared to most standard depth pools. Practical, yet fun!

That's a Persunal Pool.

Aquatic Fitness

Swimming is a great exercise for all fitness levels. You can benefit from swimming whether you're young or old, a dog paddler or a competitive athlete.** Just 2.5 hours of swimming a week will help you lose weight, tone up, relieve aches and pains, sleep better and have fun in the process.

Persunal Safety

Your awareness and understanding of safety practices and rules pertaining to the use of your pool can reduce the risk of serious injury.

Read the Pool & Hot Tub Alliance's excellent brochure, *"The Sensible Way To Enjoy Your Inground Swimming Pool"*, to learn how to avoid swimming-related accidents. For the continued enjoyment of your backyard swimming experience, please follow the following safety tips:

- Don't allow diving or jumping in your pool.
- Remember, alcohol consumption and swimming do not mix.
- Carefully supervise all the swimmers in your pool – especially small children. They're your responsibility!
- Always secure your pool from unsupervised and unauthorized use.
- Make sure signs, stickers, and labels are posted and clearly visible, and that rescue devices, such as life rings or ropes, are nearby.
