Enclosure
FINAL REPORT RELATIVE TO PROPOSED ADOPTION OF ADMINISTRATIVE RULES GOVERNING CONTINUING MEDICAL EDUCATION ON CONTROLLED DANGEROUS SUBSTANCES (La. Rev. Stat. §49:968(D))

By The

LOUISIANA STATE BOARD OF MEDICAL EXAMINERS

Submitted To The

COMMITTEE ON HEALTH AND WELFARE, LOUISIANA SENATE,

COMMITTEE ON HEALTH AND WELFARE, LOUISIANA HOUSE OF REPRESENTATIVES,

PRESIDENT OF THE SENATE

And

SPEAKER OF THE HOUSE OF REPRESENTATIVES

February 28, 2018
This Report is respectfully submitted by the Louisiana State Board of Medical Examiners (the "Board"), within the Department of Health and Hospitals, pursuant to La. Rev. Stat. §49:968(D).

By Notice of Intent published in the December 20, 2017, edition of the *Louisiana Register*, Vol. 43, No. 12, pp. 2584-2586, the Board proposed to adopt rules requiring continuing medical education (CME) on controlled dangerous substances (CDS) prerequisite to licensure renewal for individuals licensed by the Board whose scope of practice includes CDS prescriptive authority e.g., physicians, podiatrists, physician assistants and medical psychologists, LAC Title 46, (Professional and Occupational Standards), Part XLV (Medical Professions), Subpart 2 (Licensure and Certification), Chapter 40 (Continuing Medical Education on Controlled Dangerous Substances), Subchapter A (General Provisions), Sections 4001-4005.

The proposed rules are made necessary by Act 76 of the 2017 Regular Session of the Louisiana Legislature, which amended the Uniform Controlled Dangerous Substances Law, R.S. 40:978. Among other items, the proposed rules provide for: Scope of the Chapter (4001); Definitions (4003); the one-time CME requirement for CME; approved/qualifying CME and how to access it; an hour-for-hour credit towards the existing annual CME requirement for license renewal; CME documentation; non-compliance; an exception for non-prescribers of CDS; and resolution of conflicts with the Board’s other CME rules (4005).

Concurrently with submission of the Notice of Intent to the *Register*, in accordance with La. Rev. Stat. §40:968, the Board submitted a Report on the proposed rules to the Senate and House Committees on Health and Welfare, the President of the Senate and the Speaker of the House of Representatives. Following publication of Notice of Intent the Board did not receive

any written comments or a request for public hearing during the comment period provided by La. Rev. Stat. §49:953.

This Report, submitted by the Board pursuant to and as prescribed by La. Rev. Stat. §49:968(D), includes as Appendix A, a photocopy of the Notice of Intent containing the full text of the proposed rules that were previously published and appeared in the December 20, 2017 edition of the Louisiana Register, which the Board intends to adopt and formally promulgate in the identical form as was previously published by and upon publication in the April 20, 2018 edition of the Louisiana Register.

to the valuation guidelines for assessments as listed in Section II. The magnitude will depend on the taxable property for which they are liable. Regardless of the guidelines adopted by the Tax Commission, all taxpayers continue to have the right to appeal the assessments.

IV. ESTIMATED EFFECT ON COMPETITION AND EMPLOYMENT (Summary)

The impact on competition and employment cannot be quantified. In as much as the proposed changes in assessments are relatively small and there will no longer be any charges for the updates, any aggregate impact on competition and employment statewide likely will be minimal.

FISCAL AND ECONOMIC IMPACT STATEMENT FOR ADMINISTRATIVE RULES
RULE TITLE: Licensure and Certification; Continuing Medical Education on Controlled Dangerous Substances
I. ESTIMATED IMPLEMENTATION COSTS (SAVINGS) TO STATE OR LOCAL GOVERNMENT UNITS (Summary)

The proposed rules will result in a one-time publication cost of $455 for the LA State Board of Medical Examiners (BME) and a nominal workload increase that the BME will absorb using existing resources and budget authority. The BME
is promulgating the proposed rules to comply with Act 76 of the 2017 Regular Session, requiring its licensees whose scope of practice includes prescribing controlled dangerous substances (CDS), to satisfy a one-time three hour continuing medical education (CME) requirement on the prescribing of controlled dangerous substances (CDS) as a prerequisite to license renewal. The BME currently has over 18,000 physicians, podiatrists, physician assistants and medical psychologists who potentially fall within the scope of the proposed rules. The proposed rules include an exception for those attesting that they have not prescribed, dispensed or administered a CDS during the entire reporting period (expiring license) from compliance, require the BME to verify the attestation through the prescription monitoring program, and retain and submit aggregate annual compliance documentation to the Senate and House Committees on Health & Welfare.

The BME anticipates devoting some administrative resources to approving programs that qualify for the CME credit, developing and processing compliance documentation, exceptions, non-compliance and reporting to the legislature. Because the majority of the information associated with these tasks will be included in and processed with improved online systems for annual license renewal, the BME will absorb the increase in administrative workload with existing personnel and resources. Publication costs associated with the proposed rules are estimated to cost the BME $455. Otherwise, the proposed rules will not result in a material impact for the BME or local governmental units.

II. ESTIMATED EFFECT ON REVENUE COLLECTIONS OF STATE OR LOCAL GOVERNMENTAL UNITS (Summary)

The proposed rule changes will not affect revenue collections for state or local governmental units.

III. ESTIMATED COSTS AND/OR ECONOMIC BENEFITS TO DIRECTLY AFFECTED PERSONS OR NONGOVERNMENTAL GROUPS (Summary)

Affected licensees will need to satisfy a one-time three-hour CME requirement for CDS as a prerequisite to renewing their license for the first time on or after January 1, 2019. Authorized prescribers who do not complete the required CME course on controlled dangerous substances will not be relicensed by the BME until the requirement is satisfied. The CME must be taken during the year 2018, so that current licensees may satisfy the requirement in advance of renewing their license in 2019. Individuals licensed after January 2019 will need to satisfy the requirement before renewing their license for the first time in the year following initial license issuance. Under current rule, all authorized prescribers are required to complete a specified amount of CME annually as a prerequisite to license renewal. The proposed three hours of CME on CDS will count toward (and not in addition to) the existing CME requirement. Some providers will offer the required CME at no cost, while other providers may charge for the activity, representing a potential, though likely marginal, cost for licensees to the extent they must pay for the CME.

Furthermore, an exception is provided to those who have not prescribed, dispensed or administered a CDS during the entire year prior to license renewal. Reporting compliance or an exception to the CME requirement will be made part of the license renewal process. Therefore, the proposed rules are not anticipated to have a material effect on costs, paperwork, workload, receipts or income of authorized prescribers.

IV. ESTIMATED EFFECT ON COMPETITION AND EMPLOYMENT (Summary)

The proposed rules will not affect competition and/or employment.
