

Agriculture Future of America (AFA) Technology Institute provides approximately 50 undergraduate college students from across the country a three-day professional development experience. AFA Technology Institute allows students to connect with their peers and learn from leaders in the industry. The program is held in conjunction with Commodity Classic, America's largest agricultural and educational experience.

STUDENTS GAIN:

- **Insights on technology advancements, equipment and information technology**
- **Awareness of issues, developments and opportunities facing the industry**
- **Understanding of diverse careers opportunities in the industry**
- **Connections with industry leaders in agricultural technology**
- **Relationships that may aid in internship and work experience**
