AFA exists to be a catalyst in the preparation of a new generation of agriculture leaders.

What do you want to BE?

It’s probably one of the first questions we answer. It’s also a question we will continually ask ourselves. Whom are we striving to be? What’s our purpose? What legacy will we leave?

As agriculturists, these questions go beyond our personal aspirations. Agriculture is at a crossroads, like so many times before. Decisions need to be made about what comes next. How are we going to build upon the past? How will we innovate for the future? We are at a point in time where many decision makers are removed from agriculture. Agriculture’s story needs to be told. We know that. It’s time to stop talking about how. We need to step up and share our stories. It’s time to BE The Voice.

Demands for more, higher quality agricultural and food products are increasing throughout the world. Our customers want these products delivered sustainably, transparently, safely and quickly. Agriculture needs innovators to find solutions to these challenges. Nothing progresses by remaining the same. Where do we need to explore change in our industry and communities? What are we waiting for? We have the opportunity to BE The Catalyst.

There’s a generational gap in agriculture’s workforce. We will have to hit the ground running and accelerate in our careers more quickly than ever before. Knowing our purpose and place in agriculture drives us to dedicate our careers and ourselves to making a difference. We must BE The Future.

Each AFA Leaders Conference delegate is selected because of their potential and successes. We’ve demonstrated we are passionate and committed to agriculture. AFA Leaders Conference is where we dig in and start moving forward – as individuals and as a generation of leaders. Together, we commit to BE the voice, the catalyst and the future for agriculture.
Welcome to AFA Leaders Conference

Welcome to the 2015 AFA Leaders Conference. On behalf of AFA’s Board of Directors, student leaders and staff, thank you for your participation and support of AFA leader development experiences. This year’s Conference theme challenges our student delegates to consider who and what they want to BE as they launch their careers.

The current generation of students and young professionals is passionate about sharing agriculture’s message and they are equipped in a variety of ways, spanning technologies and the globe. Over 600 AFA student delegates have been specifically selected for this Conference experience based on their talent, passion and commitment to the agriculture industry. They are the future leaders of agriculture and they will lead with innovation and with integrity.

As a delegate sponsor, scholarship provider, speaker, programmatic or collegiate partner or AFA Opportunity Fair exhibitor, we thank you for partnering with us in our vision to be a catalyst in the preparation of the next generation of agriculture leaders. I invite you to enjoy your Conference experience. If you have any questions or concerns, please do not hesitate to reach out to me or any members of the AFA staff. We are glad you are here!

Agriculture Future of America

AFA creates partnerships that identify, encourage and support outstanding young men and women pursuing careers in agriculture. AFA is nationally recognized for its excellence in leader training and career development for college students and young professionals in the agriculture and food industry.

AFA Leaders Conference

AFA Leaders Conference is a key component of AFA’s leader and career development training program. This forum provides students an opportunity to develop key competencies to enhance their marketable skills. Agricultural businesses, organizations, associations, institutions and individuals invest in this program as a means to develop human capital for our industry.

At AFA Leaders Conference, students participate in one of four program tracks with the following emphases:

- **Track 1** — Personal assessment and career preparation
- **Track 2** — Communication and relationship-building skills
- **Track 3** — Managing change and preparing to live and work in a global marketplace
- **Track 4** — Lifelong learning and industry awareness

Learn more about each specific track in the next pages. All AFA delegates, industry professionals and volunteers are invited to share their thoughts about the 2015 AFA Leaders Conference on Twitter via @AgFutureAmerica and #AFALC15.

AFA Opportunity Fair

Agriculture Future of America links college students to opportunities for career development in business, production, education, science and technology.

The AFA Opportunity Fair is designed to give participating organizations a competitive edge in the identification of human capital. AFA, a year-round resource, links students and employers based on individual interests.

During the AFA Opportunity Fair, students learn about available internships and full-time employment opportunities, as well as graduate school and international study programs. Recruiters are eager to share their definitions of agriculture and explore opportunities to help students create stronger personal and professional portfolios through internships or full-time employment.

Track 1 Student Advisory Team

The pillar of the Track 1 program is self assessment. Understanding your talents, skills, values and motivations is important in finding the right career path, activating personal growth and defining your contribution to the agricultural community. Self awareness leads to a higher level of cognition and ability to work with those around you in order to reach your potential.

Thank you to all presenters, many of whom volunteer their services, for making this program possible for the next generation of agriculture leaders.

Share your thoughts about AFA Leaders Conference and Track 1 via Twitter using @AgFutureAmerica and #AFALC15.

As individuals, we are called upon to be catalysts and effectively manage personal and professional changes within our lives. In Track 3, delegates gain a better understanding of obstacles they may encounter, as well as tools and information to assist in making critical decisions, and how to transition into the global marketplace as they navigate change in their lives.

Thank you to all presenters, many of whom volunteer their services, for making this program possible for the next generation of agriculture leaders.

Track 4

Track 4 is a unique capstone experience for seniors who have been involved in multiple tracks of the AFA program. Building on the competency development from previous years, Track 4 is a highly interactive, participant-directed program. Sessions focus on making the transition from college to career and discussing individual and collective impacts to global agricultural issues. Discussion groups, participant-led facilitation and pre-conference preparation add value to the experience. Extensive executive mentoring is an integral part of Track 4.

Thank you to all presenters, many of whom volunteer their services, for making this program possible for the next generation of agriculture leaders.
