

Agriculture Future of America (AFA) Crop Science Institute promotes understanding of the crop industry and crop-related career opportunities through networking and exposure to current events and trends in the crop sector. Approximately 75 students are selected each year for this three-day program where industry leaders are connected with future talent.

- STUDENTS GAIN:**
- Knowledge of and experiences in crop science innovation
  - Opportunities to lead and facilitate small groups
  - Networking skills guided by industry professionals
  - Insight on current industry trends
  - Opportunities to explore career interests
