

EMPOWERING YOUNG LEADERS.

The Merck Animal Health Experience

When: Tuesday, April 14, 2026 | 10:45 a.m.-12:45 p.m. CST

Where: Merck Animal Health | 16201 W 95th St, Ste 300 | Lenexa, KS 66219

What: The Merck Experience offers an exclusive, behind-the-scenes look into the innovation, technology, and impact driving the future of animal health. During this immersive session, students will rotate through interactive stations across different sectors of Merck Animal Health, exploring how research, product development, and technology come together to support animal well-being and producer success. Alongside Merck employees, producers will share firsthand perspectives on how Merck's products and innovations are used in real-world settings. Students will gain a holistic view of how science and production connect - seeing the full scope of how Merck supports the animal agriculture industry from lab to livestock.

Why: This unique experience allows students to explore emerging technology and innovation in animal health, engage directly with industry professionals and producers, and better understand the partnerships that shape the future of animal agriculture.

How: Students will be divided into small groups and rotate between multiple interactive stations led by Merck employees and producers. Each station will highlight a different focus area within Merck Animal Health, such as innovation and technology, research and development, or product application in the field. Merck representatives will guide discussions, demonstrate new technologies, and showcase the real-world impact of their work in animal agriculture.

Your Role: As a Merck employee or producer participant, your engagement is essential to creating an impactful and interactive experience for students. You will:

- **Prepare:** Collaborate with your team to identify key topics, demonstrations, or technologies to highlight at your station.
- **Engage:** Lead conversations with students, answer questions, and share insights about your work and its connection to the broader animal health industry.
- **Inspire:** Encourage curiosity and share your passion for advancing animal agriculture, helping students envision future careers in this dynamic field.
