“

It looks fantastic and I feel safe in the knowledge that I **won't have to treat it every year as you do with wooden decking**. I would highly recommend this product to anyone without hesitation at all. So glad I found them and hope many more people do the same.

Mark, Trustpilot

“

After talking to a really helpful lady, she **gave an approximate quote for us** to know roughly what we were dealing with. **Extremely helpful advice and downloads sent to my email.**

Tricia, Trustpilot

“

An approved installer was recommended who quoted competitively and did a fantastic job with his team in good time.

It looks amazing.

Anthony, Trustpilot

Case Study ★★★★★

Artist Retreat

“

The existing timber deck was rotten, and we wanted to replace it with one that would have a substantial shelf-life. We were looking for something high-quality that wouldn't become slimy or discolour over the years.

The decking from EnviroBuild was the perfect solution; with a quick jet wash at the start of each season, it's back to looking freshly installed.

Charlie Avara, Managing Director, All Done Design

Pictured: Maple Outdoor Porcelain Paving

As a builder, the product has been on my radar for a long time. EnviroBuild has become the go-to decking product that I recommend to all my clients.

Case Study ★★★★★

Luxurious Pathway

“

Firstly, it has to be said that the Envirobuild Hyperion Explorer decking board path looks amazing and laying the path using their fittings was truly simple. The embossed wood grain finish is very effective and the look is set off nicely by the 6 mm gaps. The surface is flat, matt, and completely firm to the step even in the wettest of conditions; something that can definitely not be said of wood decked walkways.

Malcolm Sheppard, Slinky Studio

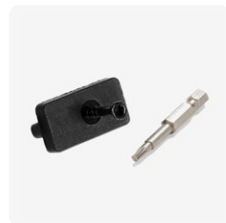

Pictured: Silver Birch Explorer

The pathway is very comfortable to walk on, with just a little springiness to the material; it's also very quiet. The great thing is that not only are we helping the environment and saving trees, but we have produced a pathway that needs no maintenance; no staining, oiling or future rotting, truly a path for life!

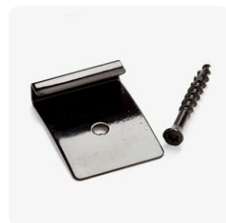

Hidden fasteners

6 mm Hidden Fasteners

£32.99 inc. VAT
per box of 100

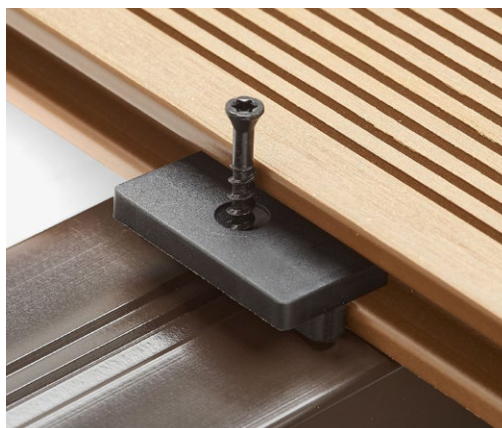

- Creates a 6 mm gap between deck boards
- Seamless finish with quick and secure installation

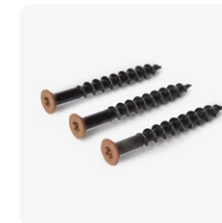

Hidden Starter Fasteners

£18.59 inc. VAT

Easy installation

Save precious time

With our **easy-to-use hidden fasteners**, everything clips into place neatly.

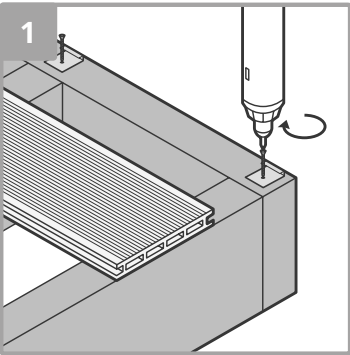

Enjoy a seamless look

EnviroBuild's revolutionary **hidden fastener system** will leave your deck with a **flush, screwless finish**.

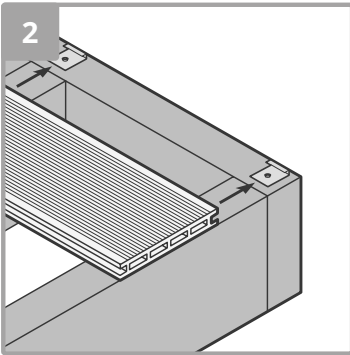

Full Guide

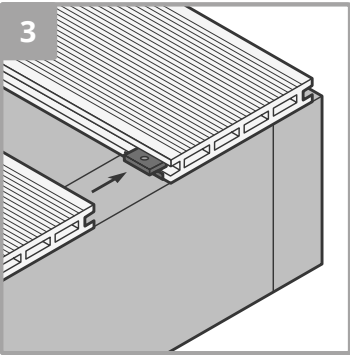

Find the full installation guide in the resource centre on our website, or simply scan the QR code.

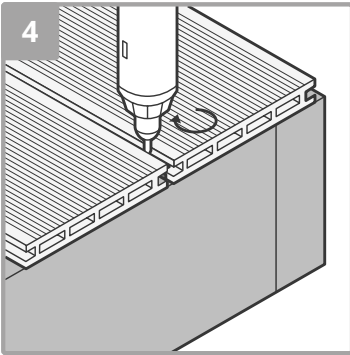

1 Fix starter clips to the outer edge of your deck.

2 Slide the first board into the starter fastener.

3 Install hidden fasteners to fit the next board in place.

4 Tighten hidden fastener screws to secure the boards.

Feel confident in making the sustainable choice

We endeavour to provide the most sustainable products on the market. Here's why your purchase can make a positive impact on the environment.

1 million kg plastic diverted from landfill annually.

That's the equivalent of **52.6 million plastic bottles.**

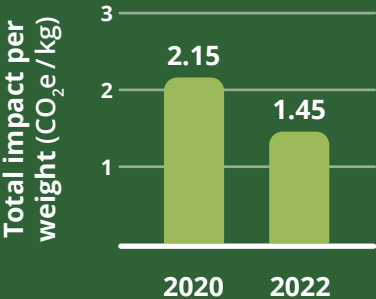

We use wind power

From 2021 Hyperion® Composites have been manufactured using **100% renewable wind energy**. This gave Hyperion® Composites a **carbon footprint (CO₂e) reduction of 33%**.

87% recycled material

This includes 57% recycled wood powder, 30% recycled HDPE, 6% stone powder and 7% additives.

Environmental impact (CO₂e / kg) reduced 32.6% since 2020

Hyperion® decking boards will produce up to 64% less CO₂e across its lifetime than softwood timber decking boards.
