

CONCEPT

Natural with Walnut Stain Hoops

BOP GOES THE WOOD HOOP

Following the success of the Concept Series Classic Wood Hoop set, Drum Workshop is proud to present its Bop cousin. The all-maple 3-piece shell pack comes in traditional Bebop sizes and features the same vintage-style, low-profile claw hooks and plied maple counter hoops. Offered in the same Walnut Stain and Natural color options, each kit has a calfskin-like tonality and can be tuned up or down for a variety of musical situations. Full specs are available online at pacificdrums.com.

Walnut Stain with Natural Hoops

PDP New Yorker

THE DARU JONES NEW YORKER HITS THE STREETS

The genre-bending drummer has lent his name to a kit as versatile as his resume. Designed to be gig-friendly and fun to play, the 4-piece DJNY rig is paired with DW Ultralight hardware and includes cases for everything. A combination of hybrid poplar/maple shell and "short stack" dimensions makes the kit sound remarkably big and warm for its diminutive size. Its striking appearance comes courtesy of a large-flake Gold-to-Black Sparkle Fade lacquer finish. To see and hear Daru demo the kit, check out: pacificdrums.com.
