

CONCEPT SERIES™ MAPLE LTD
 The newest PDP limited kit is finished in rich Olive Stain Lacquer with stealthy black hardware. It comes standard with all of the boutique-inspired features that have made PDP Concept Series drums so popular among today's rising stars and touring pros. Concept LTD drums don't just look cool; they also deliver recording-quality tone courtesy of a European maple shell, DW's signature 45 degree back-cut bearing edge and STM (Suspension Tom Mount) system. Get one before they're gone!

PDLT2215GB
 PDP Limited Olive Stain Lacquer 7x10, 8x12, 14x16F, 16x22, 5.5x13 Snare

SPECTRUM SERIES™
 Designed to bridge the gap between Mainstage and Concept Series, the all-new line of Spectrum Series drums supply ample warmth and resonance by way of a maple/poplar hybrid shell fitted with a new FTM (Floating Tom Mount) system. Kits are offered in three new 5-piece matte lacquer finishes (Ebony, Cherry and Ultraviolet Stain) and outfitted with PDP "teardrop turret" lugs. Expect more drumset and get it, with Spectrum.
