CONCEPT MAPLE CLASSIC SNARE DRUMS:

Bring the Retro Backbeat

In 2014, we introduced the world to the PDP LTD Wood Hoop Snare. That drum led to a complete line of 3-piece, vintage-inspired kits that we aptly titled Concept Maple Classic. Ironically, the only things missing were the snare drums. We listened. Introducing, Concept Maple Classic snares to match every available color option that we offer. Was it worth the wait? We think so.

FLAGSHIP SNARE DRUMS WORTH INSTAGRAMMING

This year, we set out to get drummers talking. We created a new line of snares to do just that. Our new line of marquee snare drums offer world-class tones and are visually provocative. From a curated metal shell selection to the unique laser-engraved Art Deco insignias emblazoned on each drum, these babies are worth checking out...and showing off.

CONCEPT GETS A REFRESH

Our top-shelf 7-ply European Maple shell is looking pretty slick these days. These boutique-inspired kits still come standard with a ton of pro features like STM Suspension Tom Mounts, True-Pitch Tuning, MAG Throw-Offs, F.A.S.T. sizes, and more. For 2020 we've added some fresh new finishes you can only find on a PDP kit.

HAPPY BIRTHDAY TO US

It seems like the last two decades have just flown by. This year, we get twenty candles to blow out and we've designed a truly unique kit to celebrate our anniversary. This matte-meets-gloss black stunner is outfitted with custom-plated antique bronze hardware and comes in our most popular sizes. Already have a kit? Get the snare for your prized collection. But you'll need to get them this year because after 2020, they'll be history.
