► IMPORTANT NOTES AND DISCLAIMERS

Third Point Investors Limited (the "Company") is a feeder fund listed on the London Stock Exchange that invests substantially all of its assets in Third Point Offshore Fund, Ltd ("Third Point Offshore"). Third Point Offshore is managed by Third Point LLC ("Third Point" or "Investment Manager"), an SEC-registered investment adviser headquartered in New York.

Unless otherwise stated, information relates to the Third Point Offshore Master Fund L.P. Exposures are categorized in a manner consistent with the Investment Manager's classifications for portfolio and risk management purposes in its sole discretion.

All fund level net profit and loss or performance results are based on the net asset value of fee paying investors only and are presented net of management fees (which may vary depending on share class), brokerage commissions, administrative expenses, any other expenses of the Funds, and accrued performance allocation, if any, and include the reinvestment of all dividends, interest, and capital gains. While performance allocations are accrued monthly, they are deducted from investor balances annually or upon withdrawal. The net performance results represent fund-level returns (reflecting blended rates of management fees and performance allocations based on the weighted average of the amounts invested in each share class), and are not an estimate of any specific investor's actual performance, which may be materially different from such performance depending on numerous factors. For example, had the highest management fee been applied solely, performance results would likely be lower. The Funds' performance information shown within includes net gains and losses from "new issues." The market price for new issues is often subject to significant fluctuation, and investors who are eligible to participate in new issues may experience significant gains or losses. An investor who invests in a class of Interests that does not participate in new issues may experience performance that is different, perhaps materially, from the performance reflected above. All performance results are estimates and should not be regarded as final until audited financial statements are issued.

While the performance of the Funds has been compared here with the performance of well-known and widely recognized indices, the indices have not been selected to represent an appropriate benchmark for the Funds whose holdings, performance and volatility may differ significantly from the securities that comprise the indices.
