

EBANX SINGLE TRANSACTION

OFFER **ONE SINGLE CHECKOUT** FOR MULTIPLE SELLERS AND COUNTRIES

Merchant Need

Do not lost purchases related to one end user buying itens from a local and cross border seller, in different checkouts.

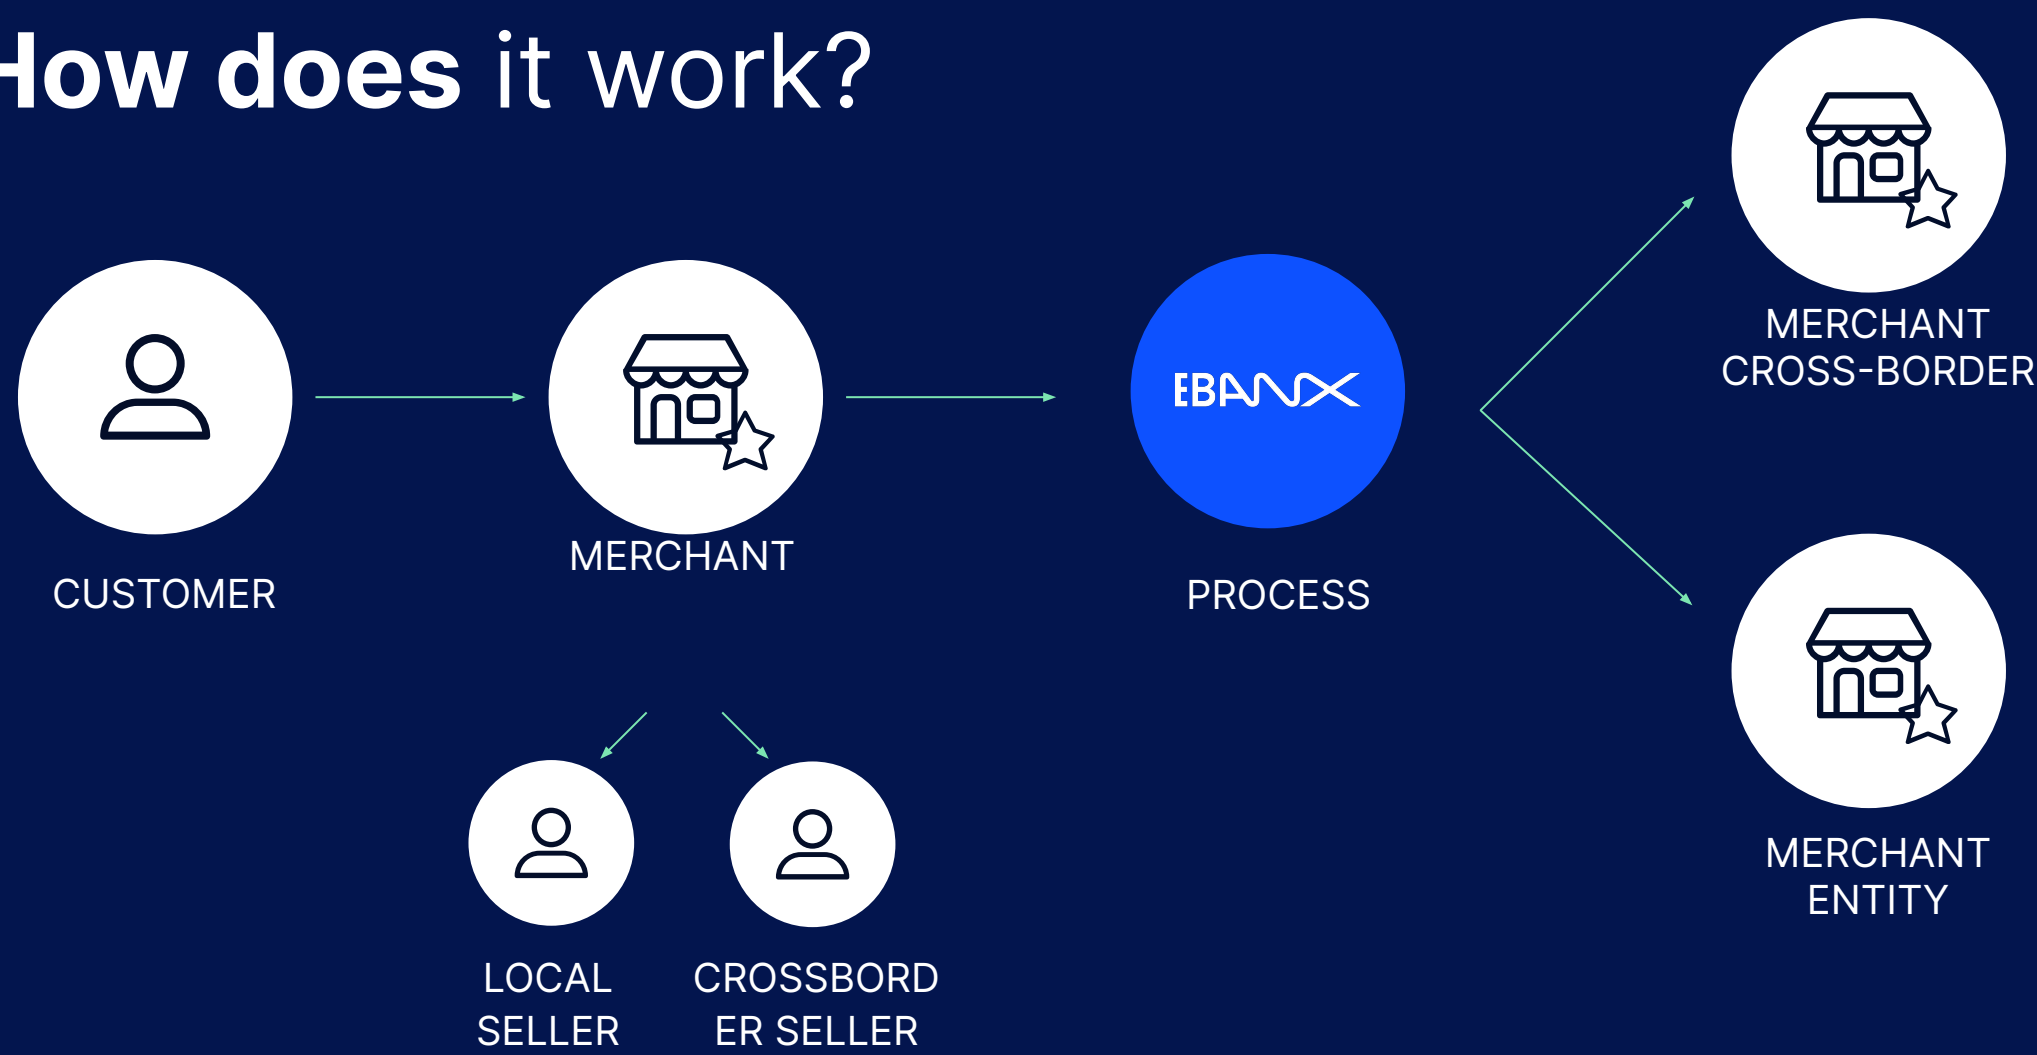

EBANX Solution

EBANX Single Transaction unifies itens in a single checkout regardless the origin of the seller (local or xb one) and sends the values in different remittances for local and international merchant's entities.

Single Transaction is the ideal solution for

Marketplaces and general e-commerces that operates with local entities, and offer local and international itens from different sellers.

How does it work?

Key Benefits

- Reach more customers**
with a unified cart and checkout page with products from multiple sellers, currencies and countries.
- Flexible Remittance**
EBANX does take care of the amount split, considering different entities and countries. Merchants have full visibility into the breakdown in every single payment.
- Smart Reconciliation**
Detailed reconciliation regardless the origin and settlement of the payment.
- Proportional Fees**
Taxes are charged considering the operation, local or crossborder.
