STANDARDS/RECOMMENDATIONS/DIRECTIVES

SCIP-Database **Substances of Concern In articles as such or in complex objects (Products)**

CONFIRMATION

Applicable to product groups: **AKROLEN®**, **AKROMID®**, **AKROLOY®**, **PRECITE®**, **AKROTEK®**

Companies supplying articles containing substances of very high concern (SVHCs) on the Candidate List in a concentration above 0.1 % weight by weight (w/w) on the EU market have to submit information on these articles to ECHA, since 17 January 2023.

AKRO-PLASTIC GmbH is not supplying any articles to the market and therefore not obliged to provide information via the SCIP Database.

Independent from the requirements of the SCIP Database AKRO-PLASTIC GmbH fulfils its obligations under REACH. One of these obligations is the communication on substances of very high concern (SVHCs). However, for products we supply to our customers this communication is managed via safety data sheets or individual confirmations. Since the Candidate List is updated regularly (typically twice a year), AKRO-PLASTIC GmbH regularly verifies if any products are affected. In case you received a product, which contains a substance of very high concern (SVHC) in a concentration above 0.1 % (w/w) you would automatically be notified by us.

The information is based on our current knowledge and experience. In view of the many factors that may affect processing and application of our product, these data do not relieve processors from carrying out their own investigations and tests. The declaration is not be construed as guaranteeing specific properties of the product or their suitability for a particular application. This declaration replaces all previous ones to this subject. The document is valid two years.
