

Organizational Changes at K.D. Feddersen Norden AB

Dear Customer and Partner

K.D. Feddersen Norden AB will change. Since 2007, our business has grown, and we now operate throughout the Nordic and Baltic countries. Our product portfolio has become significantly larger and new business areas have been added such as recycling, leasing/financing and education.

Now we are taking the next step and dividing our business into two companies to increase our customer service and gain an even clearer knowledge profile.

One company becomes two

K.D. Feddersen Distribution AB will be responsible for the sales of our technical plastic raw materials from our well-known partners.

Dan Hagström becomes Managing Director of K.D. Feddersen Distribution AB.

K.D. Feddersen Distribution AB will operate throughout the Nordic and Baltic countries.

K.D. Feddersen Plastics Machinery AB (formerly K.D. Feddersen Norden AB) will be responsible for the sales of technical raw materials from our sister company **AKRO-Plastic GmbH**.

Torbjörn Egerhag will continue as Managing Director of the company. See more details below.

With this, we hope to be able to give you even better service.

The change will take place on 2023-05-01, and we ask you to pass on the information within your company to those affected by it.

Sincerely,

Torbjörn Egerhag

K.D. Feddersen Norden AB
