Cleaning unit

For twin-screw extruder housing

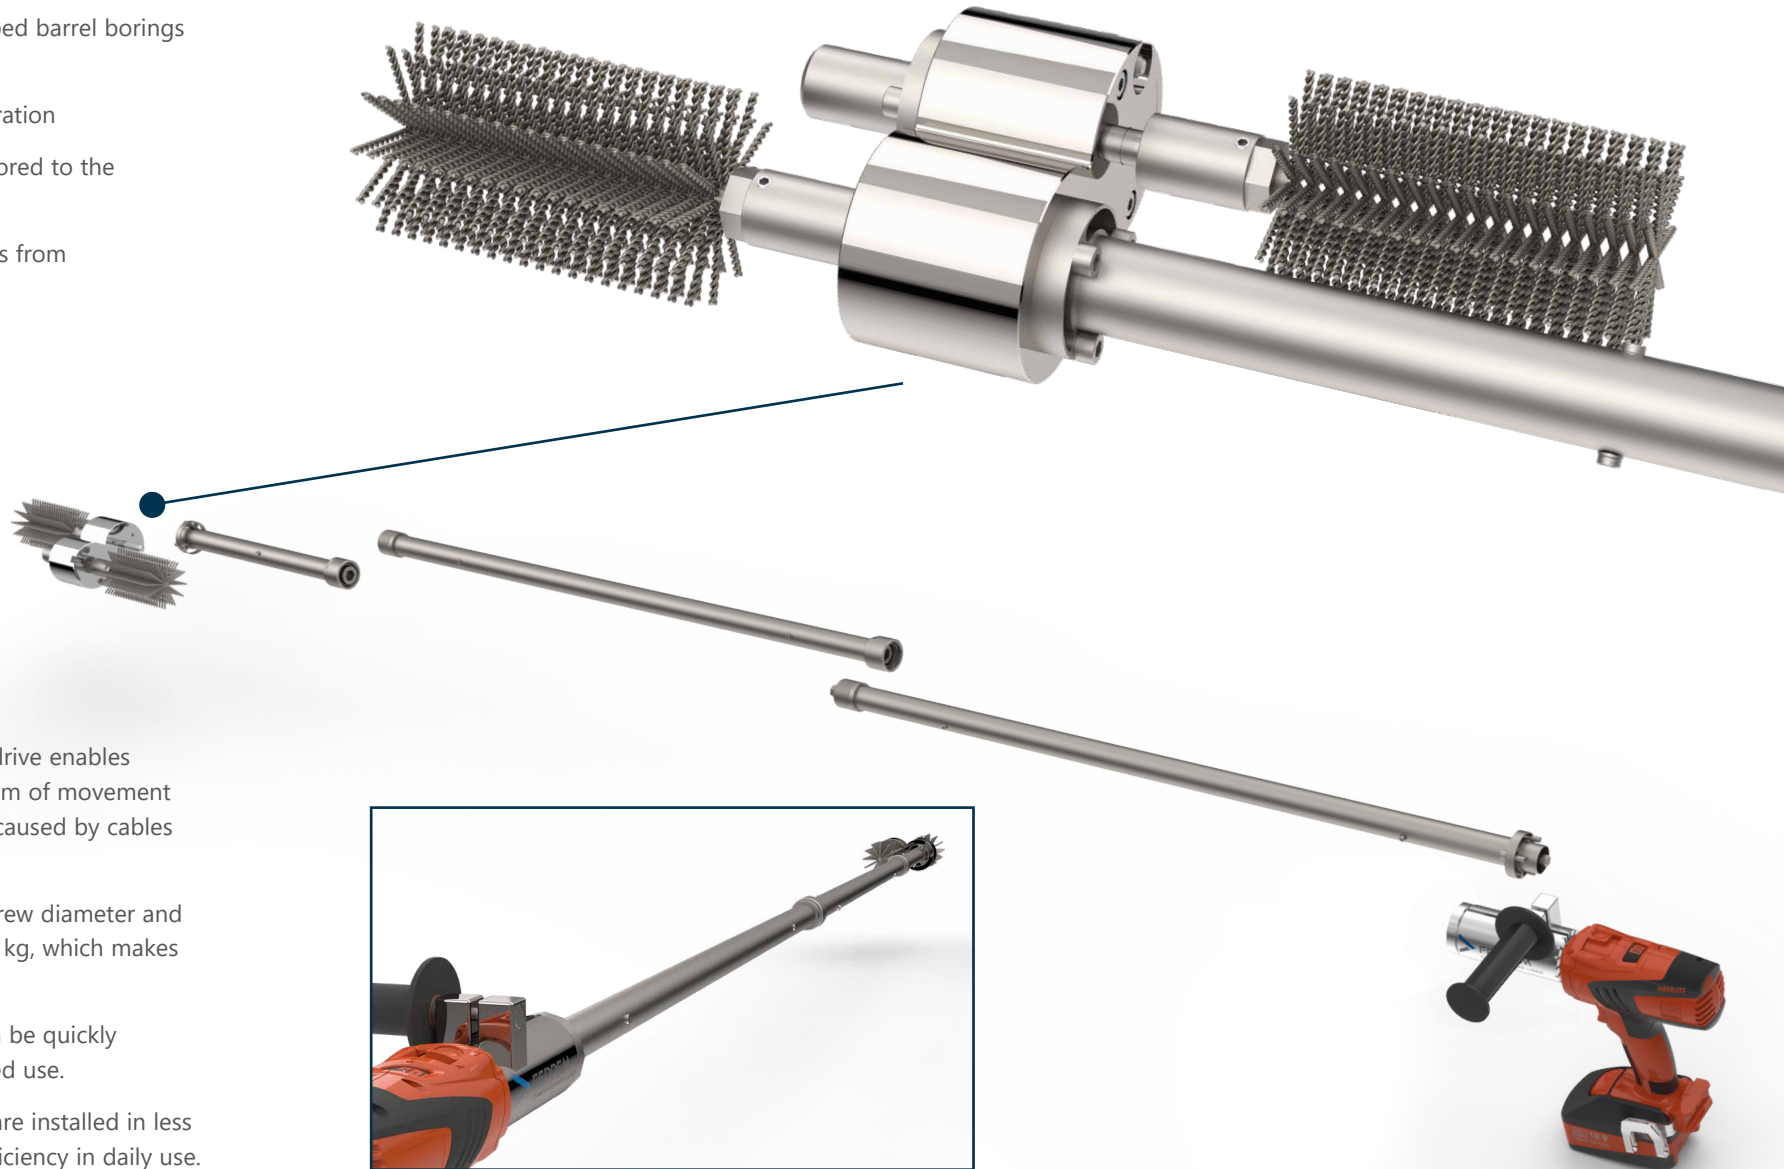

09/2025

FEDDEM FRE

Cleaning unit for twin-screw extruder housing

The FEDDEM FRE cleaning unit:

- For easy cleaning of figure-8-shaped barrel borings after removal of screws
- Two brushes in simultaneous operation
- Compact distribution gearbox tailored to the extruder size
- For extruders with screw diameters from 42 mm to 89 mm

Further strengths in detail

- **Cordless operation:** The battery drive enables cordless working, increases freedom of movement and reduces the risk of accidents caused by cables lying around.
- **Lightweight:** A unit for 72 mm screw diameter and 32 L/D length weighs less than 10 kg, which makes handling easier.
- **Ease of use:** The cleaning unit can be quickly configured for right- or left-handed use.
- **Quick installation:** The modules are installed in less than a minute, which increases efficiency in daily use.
