

Vienna/London, 29.01.2026

Bitpanda Technology Solutions partners with Ribbon PLC

Bitpanda Technology Solutions (BTS), one of the leading digital asset infrastructure providers, today announced a strategic partnership with Ribbon Plc.

Under the partnership, Bitpanda will together with Ribbon Plc launch a digital asset investment offering for the UK market, providing secure, end-to-end infrastructure covering trading, custody and execution.

The solution includes crypto buy and sell functionality, staking, swaps, savings plans, open-loop crypto transfers and omnibus custody, and is powered by Bitpanda's infrastructure and liquidity, enabling competitive pricing across more than 600+ crypto assets and scalable deployment in line with Ribbon's product roadmap.

Nadeem Ladki, Global Head of Bitpanda Technology Solutions, said:

"This partnership reflects how institutional expectations around digital assets are evolving. Financial institutions are increasingly looking for infrastructure partners that can support long-term product strategies with scale, resilience and operational maturity."

Ashesh Jani, Co-Founder & CEO, Ribbon PLC, said:

"At Ribbon, our focus is on building a trusted financial platform that serves the needs of global economic migrants. By combining strong regulatory foundations with scalable technology and responsible innovation, we are creating a financial ecosystem that enables people to move, work, and build their lives across borders with confidence. Our ambition is not simply to offer products, but to partner with trusted institutions such as Bitpanda, to offer long-term financial infrastructure that supports inclusion, mobility, and sustainable economic participation."
