DE Wie für Dich gemacht.

Für jede Körpergröße die perfekte Geometrie
Wir haben die biometrischen Daten von
hunderttausend Männern und Frauen ausgewertet
und festgestellt, dass die Bein- und Armlängen
bei Menschen ähnlicher Größe nahezu gleich
sind – und zwar unisex. Aus den relevanten Maßen
errechnet der SuperFit-Algorithmus für jede Größe
und jeden Fahrstil die perfekte Geometrie. Dabei
definiert er nicht nur die optimale Position der
Kontaktpunkte (Lenker, Pedale und Sattel),
sondern berücksichtigt selbstverständlich auch
den Einsatzbereich (Tour, Trail oder Race).

EN Custom-built for you.

The perfect geometry, no matter how tall you are.
We analyzed the biometric data of hundreds of
thousands of men and women and found that the
leg and arm lengths of people of similar height are
nearly identical - unisex. Based on key measurements
the SuperFit algorithm calculates the perfect
geometry for every height and riding style. It not
only defines the optimum position of the contact
points (handlebars, pedals and saddle), but also
takes into account the area of use (tour, trail or race).

TractionLink schluckt härteste Schläge genauso wie feine Unebenheiten, bügelt das Gelände weitgehend glatt und sorgt selbst in anspruchsvollsten Situationen für permanente Bodenhaftung. Das bringt Sicherheitsreserven, Ruhe ins Bike, spart dir Kräfte und lässt dich voll auf die Strecke konzentrieren.

TractionLink absorbs the hardest blows as well as fine bumps. It smooths the terrain, ensuring permanent grip even in the most demanding situations. This provides additional safety, calmness in the bike, saving you energy and allowing you to fully concentrate on your line.

DE Dürfen wir vorstellen?!

Unser neues E-RIOT Lineup. Ein umfangreiches Portfolio, das jedem Fahrer gerecht wird. Schon im letzten Jahr hat die Trail-Variante großen Anklang gefunden, weshalb es für unsere Entwicklung galt hier nachzulegen. Das sollte mit den neuen Allmountain und Enduro Modellen mehr als gelungen sein.

Verschiedene Akkugrößen, Aluminium- und Carbon-Modelle machen das Lineup komplett.

Natürlich kommen auch hier die SuperFit-Geometrie und der Traction-Link-Hinterbau zum Einsatz. Ein Bike mit einer perfekten Passform und einer super Kontrolle auch in rauem Gelände. Eben ganz getreu unseres Mottos: „rides like customized.“ Ein besonderes Highlight ist sicherlich die neue Bosch Performance Line CX Drive Unit und der neue Bosch PowerTube Akku, die für intensiven Fahrspaß stehen.

Egal ob Neuling oder passionierter E-Biker, unsere neuen RIOTs bieten dir die optimale Plattform um deine Ausfahrt zu einem unvergesslichen und individuellen Abenteuer zu machen!

EN Allow us to introduce ...

... our new E-RIOT lineup. A comprehensive portfolio that will suit every rider. The Trail version was such a success last year, that our development team had to pull out all the stops to top their own benchmark. The new All Mountain and Enduro models are proof that we succeeded.

Aluminum and carbon models with a range of battery sizes complete the lineup.

Of course, these bikes also feature our renowned SuperFit geometry and TractionLink rear suspension. A bike with perfect fit and outstanding control, even in rough terrain. True to our motto: „rides like customized.“ A special new highlight, the Bosch Performance Line CX Drive Unit and Bosch PowerTube battery, delivers intense riding fun.

Whether you are a beginner or a passionate e-biker, our new RIOTs offer you the optimum platform to make your ride an unforgettable and personal adventure!

GHOST GRAVEL GETAWAYS

EINES FÜR ALLES

DE Die Faszination des einfach-drauflos-fahrens, des Abenteuers, des gelebten Minimalismus zieht viele begeisterte Radfahrer in den Bann. Plötzlich fahren Roadies auf unbefestigten Wegen und Mountainbiker haben das erste Mal einen Rennradlenker in der Hand. Die Gründe zum Graveln sind so vielschichtig wie der Begriff selbst. Der eine ist Bikepacker, der andere Micro-Abenteurer, der nächste Wochenend-Fahrer und ein anderer nutzt das Gravelbike für den Weg zur Arbeit.

Gravelbikes sind die Universalgenies, die Alleskönnen, das Schweizer Taschenmesser unter den Rädern. Technisch gesehen ist an einem Gravelbike aber gar nicht so viel dran, hier gilt: Weniger ist mehr. Klar, es soll funktionieren, auf langen Strecken möglichst keine Zicken machen. Komfortabel soll es sein, mit einer sicheren und entspannten Geometrie, so dass man möglichst lange im Sattel sitzen kann. Und natürlich sind Befestigungsmöglichkeiten für Gepäck, Trinkflaschen und Schutzbleche ein Muss.

Das wissen wir bei GHOST nicht erst seit gestern und haben über die Jahre hinweg die Nische Gravel mit einer feinen Auswahl an Bikes aufgebaut. In 2022 gehen wir einen Schritt weiter und stocken unser Line-Up weiter auf. Beim ROAD RAGE tummeln sich zahlreiche neue Modelle, unter anderem auch „Equipped“ Versionen. Hier sind Licht, Gepäckträger und Schutzbleche bereits integriert, so dass man sowohl für Langstrecken als auch Pendelfahrten bestens gerüstet ist.

Ein ROAD RAGE ist vielseitig, perfekt für Alltag und Abenteuer. Was man am Ende damit macht, muss jeder für sich selbst entscheiden. Wir hätten da schon ein paar Ideen...

EN The sheer beauty of simply being able to get on and head out, experiencing an adventure and living a minimalist lifestyle fascinates many avid cyclists. Next thing you know, road cyclists ride on dirt roads and mountain bikers steer with road bike handlebars for the first time. The reasons for a gravel bike are as complex as the term itself. It is the bike of choice for bikepackers, micro-explorers, weekend riders or commuters who use a gravel bike on their way to work.

Gravel bikes are universal geniuses, all-rounders, the Swiss army knives of biking. From a technical point of view, however, gravel bikes don't overdo it. Less is more. Of course, it must work properly and not cause problems on long rides. It should be comfortable, with a safe and relaxed geometry, so that you can sit in the saddle for as long as possible. Naturally, mounting options for luggage, water bottles and mudguards are a must.

We at GHOST have known this for a long time and, over the years, we provided the Gravel niche with a fine selection of bikes. In 2022, we will go one step further and expand our line-up. ROAD RAGE will feature numerous new models, including „Equipped“ versions with fully integrated lights, luggage racks and mudguards. You will be set for both long distances and commutes in the city.

A ROAD RAGE is versatile, perfect for everyday life and adventure. What you choose to do with it in the end is your decision. We already have a few ideas...

DE Das Modelljahr 2022 wird auch das Geburtsjahr unserer #GHOSTSUPERHEROES sein. Fünf coole Kids die sich durchs Biken gefunden haben und gemeinsam die Stadt unsicher machen, in Pumptracks ihre Skills unter Beweis stellen und jede Menge Spaß zusammen haben. Die GHOST SuperHeroes, bestehend aus Greta, Henry, Ole, Sofie und Theo, setzen sich für andere ein, unterstützen sich gegenseitig und zeigen vor allem Eines: Gemeinsam Biken macht extrem viel Spaß.

EN The model year 2022 will also be the birth year of our #GHOSTSUPERHEROS. 5 cool kids who met through biking and like to roam the city together, prove their skills in pump tracks, and have lots of fun together. The GHOST SuperHeros consisting of Greta, Henry, Ole, Sofie and Theo stand up for others, support each other and, above all, are proof of the following fact: Biking together is extremely fun.

SUPER HEROES

DE Radfahren ist eine der schönsten Beschäftigungen der Welt. Besonders für Kinder sind die ersten Abenteuer auf zwei Rädern ein absoluter Meilenstein. Wer erinnert sich nicht an dieses Gefühl, einfach loszurennen zu können und zu neuen Abenteuern aufzubrechen, sich frei zu fühlen!?

Jedes Kind verdient einen treuen Gefährten um Spaß zu haben, die Welt zu entdecken und auf den Bike-Geschmack zu kommen.

Egal ob für die Kleinsten unter uns, die das erste Mal auf ein Bikeike steigen oder die erfahrenen jungen Erwachsenen, die sich in einem Rennen mit Gleichaltrigen messen oder im Bikepark mit Freunden aufs Ganze gehen, für jeden ist das passende GHOST Bike dabei,

Wir von GHOST haben für das Modelljahr 2022 das Kids Sortiment überarbeitet, haben an neuen Ideen gebastelt, uns mit den Farbwelten aus-einander gesetzt, und eine neue Kids Kollektion auf die Beine gestellt, die durch Qualität, Design und einem hohen Spaßfaktor besticht.

EN Cycling is one of the most beautiful activities in the world. Especially for children, whose first adventures on two wheels are an absolute milestone. Who doesn't remember that feeling of just being able to kick off on new adventures, feeling free!?

Every child deserves a faithful companion to have fun with, to discover the world with, and to develop a taste for biking.

Whether it's for the littlest among us getting on a bike for the first time, or experienced young adults competing with their peers in a race, or going all out in the bike park with friends, there's a GHOST bike for everyone.

We at GHOST have revised our Kids portfolio for the model year 2022. We played around with new ideas, studied color worlds, and created a new Kids collection, which impresses with quality, design and a high fun factor.

TECHNIK LEXIKON / TECHNOLOGY GLOSSARY

	VIERGELENK-HINTERBAU // 4-BAR-LINKAGE	DAS BESTE AUF JEDEM TRAIL. // Sehr Jahr bewährt. Dieses verlässliche Fahrwerk arbeitet nach einem fortwährenden Prinzip, bei dem die Bremskräfte die Federungsfunktion nicht beeinflussen. So sind maximale Trittfestigkeit und Traktion garantiert – bergauf und bergab.
	EINTEILIGE DÄMPFERWIPPE // ONE-PIECE-ROCKER	EINTEILIGES DESIGN FÜR MAXIMALE STEIFIGKEIT. // Unsere einheitliche Dämpferwippe gibt noch mal einen Extra-Vorteil: Mehr Steifigkeit führt zu geringerer Querbelastung der Bolzen und des gesamten Unterbaus.
	VOLLKUGELIGE INDUSTRIELAGER // FULL COMPLEMENT BEARING	DETAILS, DIE SICH LOHnen. // Höchster Standard für alle. Mit den langlebigen, gedichteten Kugellagern sind unsere Mountainbikes bestens gegen alle äußeren Einflüsse geschützt.
	HYDROGEFORMTE ROHRSETZE // HYDRO-FORMED TUBESETS	DETAILS THAT ARE WORTHWHILE. // The highest standard for all! With the long-life, sealed ball bearings our mountain bikes are well protected against dirt, shear forces or wear.
	FORTSCHRITTLICHE GEOMETRIE // ADVANCED GEOMETRY	MEHR KONTROLLE, MEHR SPAß. // Die Trails werden anspruchsvoller und die Fahrer auch: Dafür haben wir moderne Geometrien entwickelt, die jedem Anspruch gerecht werden.
	CARBON FLEX STAYS // CARBON FLEX STAYS	MORE CONTROL, MORE FUN. // The trails are becoming more demanding – and the riders as well: That's why we develop modern geometries that are able to meet any demand.
	GESCHMIEDETE AUSFÄLLENDEN // FORGED DROPOUT	WIE ANGEZOGEN. // Unsere geschmiedeten Ausfallenden sind hochwertig verarbeitet, erzielen besonders hohe Steifigkeit und integrieren sich zudem perfekt in unser Rahmendesign.
	GESCHMIEDETE KETTENSTREBENBRÜCKE // FORGED CHAINSTAY YOKE	THE PERFECT FIT. // Our forged dropouts are manufactured to a high quality, obtaining particularly high stiffness values, and are perfectly integrated into our frame design.
	GHOST-GABELSYSTEM // GHOST FORK SYSTEM	GESCHMIEDETE LÖSUNG. // Die Verbindung von Kettenstrebe und Tretlager ist ein ganz entscheidende Aluminiump oder Carbon - SELBST ENTWICKELT. // Unsere eigenen Gablen sind das Tüpfelchen auf dem I. Speziell für cleane und superschnelle Bikes haben wir optimierte Lösungen geschaffen.
	ABSENKBARE FEDERGABEL // VARIO FORK	ALUMINIUM ODER CARBON - SELBST ENTWICKELT. // Unsere eigenen Gablen sind das Tüpfelchen auf dem I. Speziell für cleane und superschnelle Bikes haben wir optimierte Lösungen geschaffen.
	INNEN VERLEGTE ZÜGE // INNER ROUTING	ZWEI GABELN IN EINER. // Tiefe Front für den Anstieg und vorder Federweg für die Abfahrt. Die Federgabeln mit zwei unterschiedlichen Federwegslängen verändern den Charakter des Bikes maßgeblich.
	UNSICHTBARE KABELFÜHRUNG // INVISIBLE CABLE ROUTING	ONE SUSPENSION FORK, TWO OPTIONS. // Low front for the climb, and the entire travel for the downhill. The suspension forks with two different positions considerably change the bike's personality.
	ISCG 05 // ISCG 05	SAUBERE SACHE MIT SUPER SCHÜTZ. // Innen verlegte Züge und Leitungen sind besser gegen äußere Einflüsse geschützt und sorgen für eine cleane Optik am Bike.
	STECKACHSEN-STANDARD // THROUGH-AXLE STANDARD	KEEPING IT CLEAN WITH SUPER PROTECTION. // Better protection and a cleaner look: The main advantages of internal cables and routing.

	RACE READY // RACE READY	BREITER IST BESSER. // Boost bedeutet breitere Naben. So einfach das ist, so groß ist die Verbesserung: Breitere Naben bringen mehr Stabilität.
	FEM-BERECHNET // FEM CALCULATED	WIDER IS BETTER. // Boost means wider hubs. A small adjustment for a great improvement: Wider hubs bring more stability.
	VORBEREITET FÜR TRINKFLASCHEHALTER // BOTTLECAKE READY	WETTKAMPFORTIENTIERT. // Wir wissen, was es auf der Strecke braucht. Zum einen, weil unsere Teamfahrer uns ständig mit viel Feedback versorgen. Zum anderen besteht unser Entwicklungsteam selbst aus ehemaligen (und teils noch aktiven) Rennfahrern. So liefern wir ein rennfertiges Produkt, das aus dem Karton bereit für die Strecke ist.
	VORBEREITUNG FÜR INNEN VERLEGTE TELESKOPSTÜTZE // READY FOR DROPPER SEATPOST	A COMPETITIVE SPIRIT. // We know what is needed on the track. 	STAHLFEDERDÄMPFER // COIL SHOCK	KLEINE ANTWERPEN STATT KÄMPFEN. // Nicht nur mehr Bodenfreiheit, sondern auch eine bessere Motornutzung dank kürzerer Kurzeln: Diese führen automatisch zu höherer Trittfrequenz und lassen die Motoren in einer besseren Kraftzone arbeiten.
	GEKAPSELTE SCHALTUNG // ENCAPSULED SHIFTING	MORE PEDALING, LESS STRUGGLING. // Shorter cranks mean not only more ground clearance, but also improved motor use: They automatically result in a higher cadence and make the motor work in an improved power zone.

	EINFACH-ANTRIEB // 1-BY DRIVETRAIN	LESS PARTS, LESS HASSLE. // Forget about the second shifter, the front derailleur and the cables there; with the 1-by drivetrain you don't need any of those things. No more chain slapping either. And your chain jumping off the gear is so yesterday.

	EIGHTPINS SATTELSTÜTZE // EIGHTPINS DROPPER POST	WE LOVE STANDARD // Ein derailleur hanger für all. To make it easier for everyone, we need more standards. SRAM now uses the „Universal derailleur hanger“, which not only reduces the number of spare parts, but also protects your rear derailleur from damage by folding backwards at impact.

	EIGHTPINS SATTELSTÜTZE // EIGHTPINS DROPPER POST	EIGHTPINS SATTELSTÜTZE // Durch diese Sattelstütze kommt jeder Fahrer auf den Genuss des vollen Hubes, denn sie an jede Körpergröße und jeden Fahrstiel angepasst werden.

EINSATZBEREICHE // RANGE OF USE

Jedes Fahrrad wurde für einen bestimmten Gebrauch beziehungsweise Einsatzbereich entwickelt und gebaut. Dieser Abschnitt erklärt diese Einsatzbereiche und gibt Auskunft über das maximal zulässige Gesamtgewicht bzw. Fahrergewicht.

Das **Gesamtgewicht (A)** setzt sich zusammen aus dem Gewicht des Fahrrads, des fahrfertig bekleideten Fahrers und des Gepäcks.

Das **Fahrergewicht (B)** setzt sich zusammen aus dem Gewicht des fahrfertig bekleideten Fahrers und des Gepäcks.

**A MAXIMAL ZULÄSSIGES GEAMTGEWICHT //
MAX. ALLOWED TOTAL WEIGHT**

Each bicycle is designed for a specific range of use. This section explains those ranges and the weight limits.

The **total weight (A)** equals the weight of the bicycle plus fully geared rider plus luggage.

The **riders weight (B)** equals the weight of the fully geared rider plus luggage.

**B MAXIMAL ZULÄSSIGES FAHRERGEWICHT //
MAX. ALLOWED RIDER'S WEIGHT**

ACHTUNG

Fahrräder sind stets entsprechend ihrem zugelassenen Einsatzbereich zu verwenden. Wird ein Fahrrad höheren Belastungen ausgesetzt, als von uns in der jeweiligen Kategorie empfohlen, kann das zu Beschädigungen des Materials und sogar zum Bruch führen. Ein beschädigtes Fahrrad kann unkontrollierbar werden und dadurch schwere Stürze verursachen.

Beachten Sie auch die Betriebsanleitung des jeweiligen Fahrrads.

WARNING

Bikes always have to be used within and according to their range of use. If a bike is exposed to more stress than intended in its specific range of use, the bicycle and/or its parts may be damaged or break. A damaged or broken bike may be difficult or impossible to control and may cause severe crashes.

Always pay attention to the operating manual of the respective bicycle as well.
