Notes:

The 2026-27 Fee Period: The above entry fees cover courses which commence study from 01.08.2026 - 31.07.2027.

Annual Fee Increases: Fees for continuing students in subsequent academic years of study will normally increase annually. The fee increase for continuing students will be limited to 4% or the % increase of the UK Government regulated fee.

Part Time Courses: Where a part-time variant exists for a course, assume pro-rata the full-time course fee per year of study, subject to annual inflationary increases for subsequent academic years of study

Two-Year Masters - Social Work and Health Pre-Registration only: Course fees quoted above for two-year masters courses are for both years of study. Students can expect an inflationary increase to the second year of study fee, limited to 4%.

Masters Courses with a Placement year: The placement fee will be payable within the first academic year, prior to the second year of placement. The first instalment of the placement fee (£2,000) will be invoiced at the start of the first academic year, with the balance (£1,500) payable towards the end of the first academic year.

***Part-Time Module Fees:** For courses charged by the module, fees will be charged pro-rata their credit value. By example, a 20 credit module fee for a 180 credit MSc course entry fee of £11,200 will be £1,245, with inflationary increases of up to 4% on subsequent years of study

Social Work Credit/Ma module fees: See SWK module webpages for individual module prices

Newly Qualified Pharmacist module fees: See Pharmacy module webpages for individual module prices

Home Postgraduate Research Fees are subject to UKRI confirmation

Fees for Continuing Undergraduate students can be found on the main Full Home-International tables published

Home Undergraduate Fees are regulated by the UK government and set to the maximum of the Regulated Cap. Should the Cap increase, the maximum fee rate for 2026-27 will increase in line with the change to the Cap.
